

CENTRAL JERSEY COLLEGE PREP CHARTER SCHOOL  
101 Mettlers Rd, Somerset, NJ 08873

## Central Jersey College Prep Charter School Abstract Narrative

The CJCP project for 84.282E *CJCP New Brunswick Satellite Campus* accomplishes the main purpose of 84.282E to expand educational opportunities for under served students. We will accomplish this, because we can demonstrate that we are a high-quality charter school with a successful educational model according to the definition in this grant opportunity. Also due to the fact that the state of New Jersey last year granted approval of our charter amendment for expansion to add a new campus, beginning in 2018-19, in New Brunswick—an urban area with a high poverty level and a high Hispanic population that is one of our three home districts. In addition, NJ Department of Education also approved our use of a 2:1 weighted lottery to favor applications from economically-disadvantaged families for the upcoming 2018-19 school year. CJCP is recipient of the 2016 Blue Ribbon Award and is a K-12 charter school offering comprehensive college prep curriculum. The mission of CJCP is to prepare its students for post-secondary education and beyond with the necessary skills and knowledge they need to intellectually and emotionally reach their maximum potential. The main goals of this project are to meet the demand of the community for more seats in our high-quality charter school and serve more economically-disadvantaged students in our lowest income majority Hispanic resident district, New Brunswick plus to maintain the same high standards of quality of instruction at our satellite campus and help close the achievement gap for Hispanic students in NJ.
