

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

April 30, 2020

Dear Chief State School Officer:

I write to share how the U.S. Department of Education (Department) will determine eligibility of local educational agencies (LEAs) for fiscal year (FY) 2020 funds under the Rural and Low-Income School (RLIS) program. This determination relates to an issue Department staff uncovered in late FY 2019 regarding the use of alternative poverty data to determine LEA eligibility. More specifically, as part of a review of our processes for awarding Rural Education Achievement Program (REAP) funds through the Small, Rural School Achievement (SRSA) and RLIS programs,¹ we discovered that some LEAs had been erroneously determined to be eligible for RLIS funding on the basis of alternative poverty measures instead of data from the U.S. Census Bureau's Small Area Income and Poverty Estimates (SAIPE), as required in section 5221(b)(1)(A)(i) of the Elementary and Secondary Education Act of 1965, as amended (ESEA).

The Department subsequently took action to notify States of the data required to determine future RLIS eligibility and indicated that only SAIPE data would be used to determine eligibility for RLIS in FY 2020. Nevertheless, given seven States in FY 2019 relied on the Department's past acceptance of alternative poverty data in place of SAIPE data, we have concluded that the Department has a reasoned basis not to make changes to the Department's processes for determining RLIS eligibility for FY 2020 funds. As such, the Department will allow States and LEAs to transition to the RLIS SAIPE data requirements. Accordingly, any LEA that the Department determined was eligible for FY 2019 RLIS funding (either on the basis of SAIPE data or alternative poverty data) will be considered eligible for FY 2020 funds.² In addition, LEAs that were not eligible for FY 2019 RLIS funding that meet RLIS rural requirements and have FY 2020 SAIPE poverty levels of 20 percent or above will also be eligible for FY 2020 RLIS funds. Rural non-geographic LEAs for which SAIPE data are not available that are eligible based on the same State-derived equivalent of SAIPE data that the State uses to make allocations under Part A of Title I of the ESEA, consistent with 34 C.F.R. § 200.72, will also be eligible for FY 2020 RLIS funds.

I have attached a list of all LEAs that are eligible for FY 2020 RLIS funds, including those that are eligible on the basis of FY 2019 data and those that are eligible on the basis of FY 2020 data. The Department will also update the Master Eligibility Spreadsheet (available at <https://oese.ed.gov/offices/office-of-formula-grants/rural-insular-native-achievement-programs/rural-education-achievement-program/rural-and-low-income-school-program/eligibility/>) to reflect these changes and will notify any LEA that is now eligible for both RLIS and SRSA, so that it can make an informed decision about whether to apply for SRSA (or withdraw its SRSA application) in light of its RLIS eligibility.

¹ SRSA and RLIS programs are authorized under Title V, Part B of the Elementary and Secondary Education Act of 1965.

² This excludes any LEA that was eligible for both RLIS and SRSA in FY 2019 that chose to receive SRSA funds.

If you have any questions about RLIS or SRSA eligibility, please contact Patrick Carr at 202-708-8196 or by email at patrick.carr@ed.gov.

Sincerely,

A handwritten signature in black ink that reads "Frank T. Brogan". The signature is fluid and cursive, with the first name "Frank" and last name "Brogan" being more prominent than the middle initial "T.".

Frank T. Brogan
Assistant Secretary
for Elementary and Secondary Education
