

U.S. Department of Education

Certification and Agreement for Funding under the Education Stabilization Fund Program Outlying Areas-Governors

CFDA Number: 84.425H

PROGRAM BACKGROUND INFORMATION

Purpose

Under the Education Stabilization Fund (ESF), the U.S. Department of Education (Department) allocates funds to the Outlying Areas for the purpose of providing State educational agencies (SEAs), local educational agencies (LEAs), institutions of higher education (IHEs), and other education-related entities with emergency assistance to address the impact of the Novel Coronavirus Disease 2019 (COVID-19).

Funding

The Department will award \$153,750,000 to the Outlying Areas. Of this amount, \$30,750,000 (20%) is made available to Governors under this Certification and Agreement and \$123,000,000 (80%) is made available to SEAs under a separate Certification and Agreement.

Of the ESF amount awarded to Outlying Area Governors under this Certification and Agreement, 60 percent is based on population ages 5-24 and 40 percent is based on the relative number of children counted under section 1124(c) of the Elementary and Secondary Education Act of 1965, as amended (ESEA). By statute, the Department used this same formula to make allocations to Governors under the Governor's Emergency Relief Fund.

For purposes of this Certification and Agreement, ESF funds awarded to Governors in the Outlying Areas will be referred to as ESF-Governor funds.

Eligibility

Governors in American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the United States Virgin Islands.

PART C: USES OF ESF-GOVERNOR FUNDS

The Department is interested in learning how and to what extent each Outlying Area intends to use ESF-Governor funds to establish, develop, improve, or expand the availability, accessibility, capacity, and use of remote learning techniques and technologies, which includes both distance education as defined in section 103(7) of the Higher Education Act of 1965, as amended (HEA), and distance learning as defined in ESEA section 8101(14). The Department requests the following information:

1. Does the Outlying Area intend to use any ESF-Governor funds to support remote learning for all students?
 - a. Please describe whether the Outlying Area considered conducting an assessment of the barriers to implementing effective remote learning for all students, or utilizing an existing assessment, to help target resources toward greatest needs.
 - b. With respect to elementary and secondary schools, please describe how the Outlying Area intends to use the funds to help students and teachers adopt or improve remote learning that serves all students, including students with disabilities, students from low-income families, charter school students, and non-public school students.
 - c. With respect to IHEs, please describe how the Outlying Area intends to focus expenditures to ensure that all IHEs – public and private – have the needed supports to continue executing their missions and educating their students.

Remote Learning is difficult here in our territory as the students from our public schools do not all have access to internet in order for this to occur. In promoting the equality of learning to all of our students, it is imperative that we improve, expand, and increase our classrooms to accommodate the existing enrollment at our public schools. In doing so, the technological requirements set by E-Rate will be adhered to while the funding awarded to our local DOE will fund the hardware and technological devices.

While remote learning is inevitable, we will use these funds to build these additional classrooms in attempt to meet the COVID-19 guidelines of social distancing, improve classroom air quality, and promote cleanliness and sanitation with more handwashing stations or restrooms.

2. Does the Outlying Area intend to use any of the ESF-Governor funds to support technological capacity and access – including hardware and software, connectivity, and instructional expertise – to support remote learning for all students? If so, please describe how the Outlying Area will achieve its goals for elementary and secondary schools and IHEs. Please describe the strategies the Outlying Area will use to serve disadvantaged populations listed in section 18003(d)(4) of the CARES Act.

Our focus is improvement, expansion, and construction of new classrooms with adherence to COVID-19 guidelines.

3. Does the Outlying Area intend to use any of the ESF-Governor funds to support remote learning by developing new informational and academic resources and expanding awareness of, and access to, best practices and innovations in remote learning and support for students, families, and educators? If so, please identify, generally, the resources, best practices, and innovations that the Outlying Area intends to develop and expand.

Our focus is improvement, expansion, and construction of new classrooms with adherence to COVID-19 guidelines.
