This technical guide was produced under U.S. Department of Education Contract No. 91990019F0389 with American Institutes for Research. Joanne Bogart served as the contracting officer’s representative. No official endorsement by the U.S. Department of Education of any product, commodity, service or enterprise mentioned in this publication is intended or should be inferred.

This technical guide is in the public domain. Authorization to reproduce it in whole or in part is granted. While permission to reprint this publication is not necessary, the citation should be: Consolidated State Performance Report (CSPR), U.S. Department of Education, Washington, DC: Office of Elementary and Secondary Education. Retrieved [date] from https://oese.ed.gov/offices/office-of-administration/about-us/consolidated-state-performance-reports/.

On request, this publication is available in alternate formats, such as Braille, large print, or CD-ROM. For more information, please contact the Department’s Alternate Format Center at (202) 260-0852 or (202) 260-0818.
Preface

The User Guide is intended to assist users submitting the Consolidated State Performance Report (CSPR) for SY 2019-20. This guide addresses the basic mechanics of the Illume Survey Tool, system access, and navigation for this process.

This guide will be updated if major system modifications affect user procedures.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0724. The time required to complete this information collection is estimated to average 35.00 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. The obligation to respond to this collection is required to obtain or retain a benefit under the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA). If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4537. If you have comments or concerns regarding the status of your individual submission of this form, write directly to: Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202.1

1. Introduction

The Illume Survey Tool is a web-based survey application that allows state education agencies (SEAs) to report information required under Section 8303 of the Elementary and Secondary Education Act, as amended.

2. Overview

This document provides instructions for submitting the school year (SY) 2019-20 Consolidated State Performance Report (CSPR) through the Illume Survey Tool.

Section 8303 of the Elementary and Secondary Education Act (ESEA), as amended, provides to states the option of applying for, and reporting on, multiple ESEA programs through a single consolidated application and report. Although a central, practical purpose of the CSPR is to reduce the burden on states, the CSPR is also intended to encourage the integration of state, local, and ESEA programs in comprehensive planning and service delivery, and to enhance the likelihood that states will coordinate planning and service delivery across multiple state and local programs. The combined goal of all educational agencies—state, local, and federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The CSPR includes the following ESEA programs:

- Title I, Part A;
- Title I, Part C;
- Title I, Part D;
- Title II, Part A;
- Title III, Part A;
- Title IV Part A;
- Title V, Part A;
- Title V, Part B, Subparts 1 and 2; and
- The McKinney-Vento Act.

2.1 Change from prior years

In prior years, the CSPR Part I survey tool included sections populated with EDFacts data files. In SY 2019-20, these sections will no longer appear within the CSPR Part I survey tool. The tool will be limited to manual entry fields only. Note that the required EDFacts data files will continue to be submitted through the EDFacts Submission System.

Due to COVID-19, the following manual entry sections of the CSPR Part I will not be collected for SY 2019-20:
- 1.2 Student Academic Achievement and Participation in State Assessments
  - 1.2.4 Assessment Participation by Assessment Type for Children with Disabilities
2.2 Timeline

2.2.1 Part I due date

The Authorizing State Official must certify Part I of the CSPR no later than 5:00 p.m. ET, Thursday, December 17, 2020. After this date the tool will be locked, and users will not be able to enter in information.

2.2.2 Part I reopening for corrections

The SY 2019-20 CSPR Part I will reopen for manual entry corrections on Monday, March 15, 2021. The CSPR will close on Thursday, April 1, 2021, by 5:00 p.m. ET.

2.2.3 Automated emails

The Illume Survey Tool will send CSPR email notifications to states automatically at the following intervals:

- CSPR Open Reminder
- CSPR Closing Soon Reminders
- CSPR Submission Confirmation
- CSPR Reopen Period Reminder
- CSPR Reopen Period Closing Soon Reminders
- CSPR Submission Confirmation

2.3 Help desk and technical support

Users can contact the U.S. Department of Education Partner Support Center (PSC) by toll-free telephone or email:
Telephone: 1-877-457-3336 (877-HLP-EDEN)
Federal Relay Service: 800-877-0996 (Voice/TTY) / federalrelay@sprint.com
Email: EDEN-Submission-System@ed.gov

Hours of operation are between 8:00 a.m. and 6:00 p.m. ET, Monday through Friday, except for federal holidays.
3. Accessing the Illume Survey Tool

3.1 Website

Each State CSPR Coordinator will receive a unique link from OESE.CSPR@ed.gov via email to enter their information into the Illume Survey Tool. Each State will only receive one link. Users can either click on the link to enter the tool (recommended) or type the website information into the browser.

3.2 Accessibility

The Illume Survey Tool is designed to be 508-compliant. Although the tool will work on a mobile device, for best performance a computer is recommended. Additionally, the Illume Survey Tool will work on all browsers; however, Chrome is recommended for optimal use.

3.3 Users

3.3.1 Types of users

The CSPR collection, through the Illume Survey Tool, supports a single type of user. The user can view, enter, and update CSPR data via Illume, only for their own state. They can view and print the report at the end of the tool, email the certification form, and submit CSPR data.

3.3.2 Multiple and concurrent users

While Illume will allow for multiple users at different times, concurrent use (more than one user at the same time) should be avoided to ensure data are not lost. For instance, if one person is entering data in Section 1.3.4 Poverty Quartile Breaks while another is entering data in Section 1.4 Title III and Language Instructional Programs, there is a risk that the input of one of the users will be omitted as the other user navigates through the tool. However, the system can accommodate multiple users within a state to access the tool at different times. To avoid potential confusion and unintended omission of data, assign responsibilities so that no two users work in the tool at the same time.
3.4 Entering the Illume Survey Tool

To access the Illume Survey Tool, the State CSPR Coordinator will click on the link emailed from OESE.CSPR@ed.gov on Monday March 15, 2021. A username or password is not needed to access the tool. If multiple state staff are responsible for completing the CSPR, each person will use the same link.

The screen below is what the user will see upon entering the tool. Click “Next” to continue.
4. Completing Part I in the Illume Survey Tool

4.1 Navigating through the tool

4.1.1 Forward and backward

A progress bar at the top of each page indicates how much of the survey has been completed. Use the “Previous” and “Next” buttons at the bottom of each screen to navigate through the tool. The “Previous” button will take the user to the screen they were previously on. If the user has been using the navigation drop down (see section 4.1.2), the previous button will take the user to the previous section completed, which may not be the previous section in the tool. If the survey has not been submitted, a user can navigate to any page; however, after submission the form will be locked, and data will not be able to be edited. For information on unlocking the tool after submission, please see Section 4.3.

→ Note that the Tab key can also be used to move from one data entry field to the next within a page. Please do not use the Enter key.

4.1.2 Skipping sections

After the introduction screen and again after each section, a navigation page appears that will allow users to skip to different sections within the Illume Survey Tool. Use the drop box on any navigation screen to select the section you wish to navigate to and click “Next” to proceed to that section. A screenshot of this item is shown below.

4.1.3 Exiting and saving

Users can also use the “Save” button at the bottom of each page to exit the survey and return to it later. All data entered in any part of the survey tool will be saved and can be
edited upon returning to the tool. After users click “Save” at the bottom of any page, they have the option of entering an email address to which the unique link to the survey tool can be sent. The link is the same link that was emailed to users on March 15, 2021. Anyone with this unique link will be able to access and edit data within the survey tool. If “Save” was erroneously clicked, users can click “Resume” to re-enter the survey tool.

→ Note that data are saved automatically when users click “Next” as they navigate through the survey tool. If a user closes the web browser prior to clicking “Next” on a given page, the information entered on that page will not be saved and will need to be re-entered.

4.1.3 4 Returning to a saved survey

Users can return to a survey already in progress by clicking on the unique link sent via email from OSE.E.CSPR@ed.gov on Monday, March 15, 2021. The link will take the user to the last page the user was working on. Additionally, users who clicked the “Save” button and emailed a link to themselves (or someone else) can click on that link in their email and will be brought to the same page they were working on.

4.2 Entering data

The Illume Survey Tool uses several different kinds of data entry fields. On some screens, users will type in text or numerical responses, while on other screens users will click on the appropriate response or select numbers using drop-down boxes. The following section provides details for entering information on each screen.

4.2.1 State Report Cards (Part I, Section 1.1.1)

Section 1.1.1 of the CSPR asks for the URL for the State’s publicly posted Annual State Report Card. Users can enter this URL either by copying and pasting or typing in the text box.
Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.2 Teachers poverty quartile breaks (Part I, Section 1.3.4)

Section 1.3.4 of the CSPR asks users for the poverty quartile breaks used in determining high- and low-poverty schools. The user should enter numbers in the table between 0 and 100 and may include up to one decimal point.

→For example, if the percentage of students who qualify for free or reduced-price lunch is the state’s poverty measure, the user would rank order all schools from highest to lowest percentage of students and divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools and schools in the last (lowest group) are the low-poverty schools.

→Error: If a number entered is outside the range, the user will get the following error message: “For the high-poverty/low-poverty measure, please enter a number between 0 and 100.” The error message will appear as a pop-up box as well as in red text above the table. The user should click “ok” in the pop-up box and update the number. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed. The Illume Survey Tool checks one number at a time such that, if both numbers are outside the acceptable range, only one error message will appear at a time (e.g., when the error on the high-poverty measure is fixed, the error on the low-poverty measure will show).

The user is also asked to include the corresponding poverty metric used (e.g., percent of students who qualify for free or reduced-price lunch, as in the above example) to determine the poverty quartiles. This information should be entered into the text box in the table in the row below the percentages for high- and low-poverty schools. This information is required to navigate through the survey tool.
Information about any data quality issues can be included in the comment box.

Comments: The response is limited to 8,000 characters.

When all the information is entered, click “Next” to proceed to the next item.
4.2.3 Language Instruction Educational Programs (LIEPs) (Part I, Section 1.4.2)

Section 1.4.2 of the CSPR asks users for the language of instruction (if applicable) for each type of LIEP implemented in the State. The user can also include another language for an instructional course that is not listed by typing in the “other” box within the table.

<table>
<thead>
<tr>
<th>LIEPs</th>
<th>Language of instruction (if applicable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Transitional Bilingual</td>
<td></td>
</tr>
<tr>
<td>Dual Language or Two-way Immersion</td>
<td></td>
</tr>
<tr>
<td>English as Second language (ESL) or English Language Development (ELD)</td>
<td></td>
</tr>
<tr>
<td>Content Classes with Integrated ESL support</td>
<td></td>
</tr>
<tr>
<td>Newcomer Programs</td>
<td></td>
</tr>
<tr>
<td>Other</td>
<td></td>
</tr>
</tbody>
</table>

Information about the “other” LIEPs can be included in the first comment box.

Explain in the comment box below if the State has any additional LIEPs that are not captured in the table above. The response is limited to 8,000 characters.
Information about any data quality issues can be included in the second comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.4 Teacher information and professional development (Part I, Section 1.4.4)

Section 1.4.4 of the CSPR asks users to report how many teachers will be needed for the succeeding 5 fiscal years. A number up to 999,999 can be entered. The number must be a whole number between 0 and 999,999 without a comma separator.

→ Error: If the number is outside the range or includes a decimal, text, or comma, the user will get the following error message: “Please enter a whole number between 0 and 999999. Do not report comma separators or decimals.” The error message will appear as a pop-up screen as well as in red text above the question wording. The user should click “ok” in the pop-up box and update the number. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.5 Activities of subgrantees related to the teaching and learning of ELs (Part I, Section 1.4.5)

Section 1.4.5 of the CSPR asks for the number of LEAs that conducted various activities under Section 3115 of the ESEA. A number between 0 and 9,999 should be entered in each row in the table.

→ Error: If any number in the table is outside the range or includes a decimal, text, or comma, the user will get the following error message: “Please enter a whole number between 0 and 9999. Do not report comma separators or decimals.” The error message will appear as a pop-up screen as well as in red text under the row the error message triggered. The user should click “ok” in the pop-up box and update the number in the appropriate row. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

<table>
<thead>
<tr>
<th>Activities serving ELs in LEAs receiving Title III funds</th>
<th># of LEAs that conducted activity</th>
</tr>
</thead>
<tbody>

<td></td>
</tr>
<tr>
<td>Other</td>
<td></td>
</tr>
</tbody>
</table>
Additionally, this page asks the user to describe what “other” activities were conducted, if a number greater than 0 was entered in the “other” row. This information can be entered into the first text box.

If State reports a nonzero count of LEAs under “Other”, please describe the activities that were conducted during SY 2019-20 in the comment box below. The response is limited to 8,000 characters.

Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
Section 1.4.6 of the CSPR asks users to mark each form of assistance provided by the SEA to the LEAs receiving Title III subgrants. A user is able to mark as many forms of assistance as needed by clicking on the corresponding check box.

Additionally, this page asks for a description of the “other” forms of assistance that were provided, if the “other” option is marked. This information can be entered into the first text box.

Information about any data quality issues can be included in the second comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.7 Education programs and activities for immigrant students (Part I, Section 1.4.7)

Section 1.4.7 of the CSPR asks users to report the number of 3114(d)(1) subgrants. The number must be a whole number between 0 and 9,999.

→ Error: If the number is outside the range or includes a decimal, text, or comma, the user will get the following error message: “Please enter a whole number between 0 and 9999. Do not report comma separators or decimals.” The error message will appear as a pop-up screen as well as in red text above the question wording. The user should click “ok” in the pop-up box and update the number. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

If “0” is reported in the number of subgrants, add any additional information in the first comment box.
Information about any data quality issues can be included in the second comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.8 State subgrant process (Part I, Section 1.4.8.1)

Section 1.4.8.1 of the CSPR asks for three data points about the State subgrant process in a table:

1) The date the State received Title III allocation from the U.S. Department of Education (ED). Users can use the drop down boxes to enter the date.

2) The date those funds were available to subgrantees. Users can use the drop down boxes to enter the date.

3) The average number of days for the State to make subgrants to subgrantees. This should be entered as a whole number between 0 and 366.

→ Error: If the number is outside the range or includes a decimal, text, or comma, the user will get the following error message: “For # of days/$$ distribution, please enter a whole number between 0 and 366. Do not report comma separators or decimals.” The error message will appear as a pop-up box as well as in red text above the table. The user should click “ok” in the pop-up box and update the number in the table. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

### 1.4.8 State Subgrant Activities

This section collects data on State subgrant activities.

#### 1.4.8.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from the U.S. Department of Education (ED), normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be submitted using the MM/DD/YY format.

Example: State received SY 2019-20 funds July 1, 2019, and then made these funds available to subgrantees on August 1, 2019, for SY 2019-20 programs. Then the “# of days/$$ Distribution” is 30 days.

<table>
<thead>
<tr>
<th>Date State Received Allocation</th>
<th>Date Funds Available to Subgrantees</th>
<th># of Days/$$ Distribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Month:</td>
<td>Month:</td>
<td></td>
</tr>
<tr>
<td>Day:</td>
<td>Day:</td>
<td></td>
</tr>
<tr>
<td>Year:</td>
<td>Year:</td>
<td></td>
</tr>
</tbody>
</table>

Definitions:

1. **Date State Received Allocation** = Date the State receives the Title III allocation from ED.
2. **Date Funds Available to Subgrantees** = Date that Title III funds are available to approved subgrantees.
3. **# of Days/$$ Distribution** = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.
Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.9 Steps to shorten the distribution of Title III funds to subgrantees (Part I, Section 1.4.8.2)

Section 1.4.8.2 of the CSPR asks users to describe in a text box how their State can shorten the process of distributing Title III funds to subgrantees. The user should type text or paste text directly in the box. This information is required to navigate through the survey tool.

When all the information is entered, click “Next” to proceed to the next item.
4.2.10 Termination of Title III Language Instruction Educational Programs (Part I, Section 1.4.9.1)

Section 1.4.9.1 of the CSPR asks for information about the termination of Title III programs or activities as required by Section 3122(b)(7) of the ESEA. The first item asks the user to select Yes or No regarding the question of whether any programs or activities were terminated for failure to reach program goals. Select one response by clicking on the corresponding circle. This information is required to navigate through the survey tool.

If Yes is selected, enter the number of terminated programs or activities in the subsequent box. The number entered must be between 1 and 999,999.

Error: If a number is not entered (and Yes is selected), or if the number entered is outside the range or includes a decimal, text, or comma, the user will get the following error message: “Please enter a whole number between 1 and 999999. Do not report comma separators or decimals.” The error message will appear as a pop-up box as well as in red text above the item. The user should click “ok” in the pop-up box and update the number. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.11 Education for homeless children and youths program (Part I, Section 1.6)

Section 1.6 of the CSPR asks for information about the number of LEAs in the State who reported data on homeless children and youth and the McKinney-Vento program. In the first row, enter data on the number of LEAs without subgrants, and in the second row enter data on the number of LEAs with subgrants. Numbers entered should be between 0 and 99999. As numbers are entered, the third row will automatically add them for a final number of LEAs. To ensure a correct total is displayed, enter 0 in the appropriate row if there are no LEAs who reported data.

Error: If a number entered is outside the range or includes a decimal, text, or comma, the user will get the following error message: “For LEAs with/without subgrants, please enter a whole number between 0 and 99999. Do not report comma separators or decimals.” The error message will appear as a pop-up box as well as in red text above the table. The user should click “ok” in the pop-up box and update the number. The user will not be able to navigate forward or backward through the instrument until the number conforms to the expected format or is removed.

Information about any data quality issues can be included in the comment box.

When all the information is entered, click “Next” to proceed to the next item.
4.2.12 Viewing and printing the report

A report summarizing in tabular form all the data entered into the Part I tool will generate within the tool two times: first, after all the data have been entered but before the certification has been submitted, and second, after the certification has been submitted but before the final submission of the data has been made. At either time the summary report is generated, the user can navigate back through the survey tool (by clicking the "Previous" buttons on each page until the desired page is reached) and revise any errors or supply any missing information. The report can only be printed or saved as a .PDF through your browser.

→ **Note that the report cannot be viewed after submitting the data, as users will no longer be able to access the instrument. For information about accessing the tool after submission, please see Section 4.3.**
4.2.13 Submitting the certification form

After all the data have been entered, users will certify the data. On the Submission of School Year 2019-2020 Consolidated State Performance Reporting Part I Certification page, users will be asked to click on the link (https://CSPRPartICertification.air.org/) to download the certification form. Users will need to complete it, sign it, and send it via email to OESE.CSPR@ed.gov.

After the signed form has been submitted, the user can click “Next” in the survey tool. Users will then mark that they have submitted the signed certification form by checking the box and clicking “Next” again.

Users will not be able to navigate forward or submit their data until they indicate the certification form has been signed and submitted.
4.2.14 Submitting the data

When the user has submitted the certification form, reviewed the second report, and no longer wishes to make changes to the data, the user may submit the data. On the report page there is a “Submit” button. After this button is clicked, the link will be locked, and the user will no longer have access to edit the data or view the report.

Thank you for completing the 2019-20 Consolidated State Performance Report, Part I.
Your responses have been received. Please close the window to exit the survey.
4.3 Re-entering the Survey after Submitting

A user will not be able to re-enter the survey after submitting. The survey tool will be locked. In the event that the tool needs to be unlocked for any reason, contact the U.S. Department of Education Partner Support Center (PSC) by toll-free telephone or email:

Telephone: 1-877-457-3336 (877-HLP-EDEN)
Federal Relay Service: 800-877-0996 (Voice/TTY) / federalrelay@sprint.com
Email: EDEN-Submission-System@ed.gov

Hours of operation are between 8:00 a.m. and 6:00 p.m. ET, Monday through Friday, except for federal holidays.
The Department of Education’s mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.

www.ed.gov
