PROGRAM BACKGROUND INFORMATION

Purpose

Under the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act), Pub. L. No. 116-260 (December 27, 2020), Congress first authorized the Emergency Assistance to Non-Public Schools (EANS) program as part of the Governor's Emergency Education Relief (GEER II) Fund to provide emergency services or assistance to non-public schools in the wake of the Coronavirus Disease 2019 (COVID-19). The American Rescue Plan Act of 2021 (ARP Act), Pub. L. No. 117-2 (March 11, 2021), authorized a second round of funding (ARP EANS) to provide services or assistance to non-public schools. With two exceptions, the requirements of ARP EANS are the same as those in section 312(d) of the CRRSA Act. The two exceptions are: (1) a State educational agency (SEA) may only provide services or assistance under ARP EANS to non-public schools that enroll a significant percentage of students from low-income families¹ and are most impacted by the novel Coronavirus Disease 2019 (COVID-19) emergency and (2) an SEA may not use ARP EANS funds to provide reimbursements to any non-public school for costs the school incurred to address the impact of COVID-19 emergency.²

Eligibility

The Governor in each of the 50 States and the Commonwealth of Puerto Rico, as well as the Mayor of the District of Columbia, is eligible to apply.

Funding

Congress appropriated \$2,750,000,000 for the ARP EANS program. The U.S. Department of Education (Department) will award funds to a Governor with an approved application based on the State's relative share of children aged 5 through 17 who are from a family at or below 185 percent of the poverty level and who are enrolled in a non-public school. The amount each State is eligible to receive is indicated in the allocation table in Appendix D.

By accepting an ARP EANS award from the Department, a Governor automatically designates the SEA to administer the ARP EANS program. An SEA will be the payee or fiscal agent in the Department's grants management system (G5) for purposes of accessing Federal funds.

Timeline

A Governor must apply for funding under the ARP EANS program by **September 9, 2021**. The Department intends to make an award to a Governor within 15 days of receiving an approvable application. An SEA, as the agency designated to administer the ARP EANS program, must make an application available to non-public schools no later than 30 days after receipt of the funds and approve or deny an application from a non-public school no later than 30 days after receiving it. The SEA must, to the extent practicable, obligate all funds for services or assistance to non-public schools in the State in an expedited and timely manner, but not later than six months after receiving the funds. (An SEA is considered to have received ARP EANS funds on the date the Department makes the grant award to the Governor.) An SEA that complies with its responsibilities under the

¹ Under these final requirements, "students from low-income families" has the same meaning as "low-income students" under section 2002(a) of the ARP Act. "Students from low-income families" is a term used in section 312(d) of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021.

² Reimbursement to a non-public school for costs the school incurred to address the impact of COVID-19 was a previously authorized service under section 312(d)(4)(M) of the CRRSA Act.

ARP EANS program but has unobligated funds remaining six months after receiving those funds must return them to the Governor for any authorized use under the GEER II Fund. Before the SEA returns ARP EANS funds to the Governor, it should notify the Department.

Types of Services or Assistance

A non-public school may receive services or assistance under the ARP EANS program to address educational disruptions resulting from the COVID-19 emergency for:

- A. supplies to sanitize, disinfect, and clean school facilities;
- B. personal protective equipment (PPE);
- C. improving ventilation systems, including windows or portable air purification systems to ensure healthy air in the non-public school;
- D. training and professional development for staff on sanitation, the use of PPE, and minimizing the spread of infectious diseases;
- E. physical barriers to facilitate social distancing;
- F. other materials, supplies, or equipment to implement public health protocols, including guidelines and recommendations from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities to effectively maintain the health and safety of students, educators, and other staff during the COVID-19 emergency;
- G. expanding capacity to administer coronavirus testing to effectively monitor and suppress coronavirus, to conduct surveillance and contact tracing activities, and to support other activities related to coronavirus testing for students, teachers, and staff at the non-public school;
- H. educational technology (including hardware, software, connectivity, assistive technology, and adaptive equipment) to assist students, educators, and other staff with remote or hybrid learning;
- I. redeveloping instructional plans, including curriculum development, for remote learning, hybrid learning, or to address learning loss;
- J. leasing of sites or spaces to ensure safe social distancing to implement public health protocols, including guidelines and recommendations from the CDC;
- K. reasonable transportation costs; and
- L. initiating and maintaining education and support services or assistance for remote learning, hybrid learning, or to address learning loss.

As noted above, pursuant to ARP EANS statutory requirements and unlike the EANS program authorized under section 312(d) of the CRRSA Act, an SEA may not use ARP EANS funds to provide reimbursements to any non-public school.

SEA Identification of Non-Public Schools to be Served

Under section 2002(a) of the ARP Act, services or assistance to non-public schools under the ARP EANS program are limited to “non-public schools that enroll a significant percentage of [students from low-income families] and are most impacted by the [COVID-19] emergency.” To clarify this and other requirements, the Department issued final requirements for the ARP EANS program on July 9, 2021.

The final requirements require a Governor, in his or her application for ARP EANS funds, to identify the significant poverty percentage and the factors demonstrating the impact of the COVID-19 emergency the State will use, after approval by the Secretary, to determine which non-public schools are eligible to receive services or assistance. In addition to meeting the definition of a non-

public school in section 316(6) of the CRRSA Act and the eligibility requirement in section 312(d)(9) of the CRRSA Act, a non-public school must meet or exceed the State's significant poverty percentage and be most impacted by the COVID-19 emergency.

A non-public school enrolls a significant percentage of students from low-income families if the percentage of students from low-income families enrolled in such school meets or exceeds--

- 40 percent; or
- An alternate significant percentage approved by the Secretary in the State's application that is based on circumstances in the State, which may be—
 - The State's average percentage of students from low-income families in public and non-public schools;
 - The average percentage of students from low-income families in non-public schools in the State that, for example, applied for or participated in the EANS program authorized by the CRRSA Act; or
 - Other factors that the State demonstrates support an alternate significant poverty percentage.

A non-public school is most impacted by the COVID-19 emergency based on one or more of the following factors:

- The number of COVID-19 infections per capita in the community or communities served by the non-public school;
- The number of COVID-19-related deaths per capita in the community or communities served by the non-public school;
- Data on the academic impact of lost instructional time³ and the social, emotional, and mental health impacts on students attending the non-public school attributable to the disruption of instruction caused by the COVID-19 emergency; or
- The economic impact of the COVID-19 emergency on the community or communities served by the non-public school.

In addition to using one or more of these factors, an SEA may use other factors included in the State's approved application to determine that a non-public school is most impacted by the COVID-19 emergency.

Following the Secretary's approval of a State's application for EANS funding under the ARP Act, an SEA must publish on its website, on or before the date it makes applications for EANS services or assistance under the ARP Act available to non-public schools, the State's approved (1) minimum percentage to determine whether a non-public school enrolls a significant percentage of students from low-income families, (2) source(s) of poverty data to be used to determine counts of low-income families in a non-public school, and (3) factors to determine whether a non-public school is most impacted by the COVID-19 emergency.

Determining Low-Income Counts

To be counted as a student from a low-income family for purposes of the ARP EANS program, a student must be aged 5 through 17 from a family whose income does not exceed 185 percent of the

³ We note that section 312(d)(4)(L) of the CRRSA Act specifically authorizes the use of EANS funds to address "learning loss," which the final requirements refer to as the "academic impact of lost instructional time."

2020 Federal poverty threshold. To obtain a count of students from low-income families enrolled in a non-public school, an SEA may use one or more of the following sources of data, provided the poverty threshold is consistent across sources:

- Data on student eligibility for free or reduced-price lunch under the Richard B. Russell National School Lunch Act (43 U.S.C. 1751 *et seq.*).
- Data from the E-rate program administered by the Federal Communications Commission (47 CFR 54.500, 54.505(b)).
- Data from a different source, such as scholarship or financial assistance data.
- Data from a survey developed by the SEA.

ARP EMERGENCY ASSISTANCE TO NON-PUBLIC SCHOOLS PROGRAM

PART B: APPLICATION REQUIREMENTS

1. Identify the threshold the State will use to determine if a non-public school enrolls a significant percentage of students from low-income families that meets or exceeds (check one of the following).

- 40 percent; or
- An alternate significant percentage, contingent on approval by the Secretary, that is based on circumstances in the State, which may be--
 - (1) The State's average percentage of students from low-income families in public and non-public schools;
 - (2) The average percentage of students from low-income families in non-public schools in the State that, for example, applied for or participated in the EANS program as authorized by the CRRSA Act; or
 - (3) Other factors that the State demonstrates support an alternative significant poverty percentage.

2. If you selected an alternate significant percentage, please respond to the following:

A. What alternate significant percentage are you proposing?

20 percent

B. What is the basis for the proposed alternate significant percentage (check and enter text for one or more of the following)?

The State's average percentage of students from low-income families in public and non-public schools. *If selected, please identify the average percentage and provide an explanation of how these data justify the proposed alternate significant percentage.*
Click here to enter text.

The average percentage of students from low-income families in non-public schools in the State that, for example, applied for or participated in the EANS program as authorized by the CRRSA Act. *If selected, please identify the average percentage and provide an explanation of how these data justify the proposed alternate significant percentage.*

The proposed alternate significant percentage is based on the following data.

First, based on EANS I schools that did not utilize proportionality, data, there were a total of 2,484 low-income children and a total enrollment of 13,019, resulting in 19.1 percent of students in non-public schools being low-income. Second, averaging the low-income enrollment percentage for each school that participated in EANS rather than just comparing the aggregate low-income students and aggregate overall enrollment, there was an average of 26.55 percent of low-income students in non-public schools. Based on these two data points, South Carolina is proposing that 20 percent be the alternate

significant percentage of poverty.

Please note that South Carolina tried to implement a 40 percent threshold. However, only 13 applications were received. Of these 13 applications, only nine met the 40 percent threshold. These eligible non-public schools indicated a total low-income enrollment of 699 students, with a total overall enrollment of 1,415 students. EANS I applications indicated a total of 11,605 low-income students with a total overall enrollment of 29,031. The state of South Carolina respectfully requests that, if the revised threshold is approved, that the timeline for obligation of the funds be extended by at least four months from the date of approval so that schools have time to apply.

The American Rescue Plan Act (ARPA) of 2021 expressly allocated federal funds to non-public schools that have a significant percentage of students from low-income families to address educational disruptions resulting from the COVID-19 emergency. If South Carolina is to expend even a fraction of its allocation, then South Carolina must use an alternative threshold.

In response to the United States Department of Education's inquiry regarding any plans to target non-public schools with higher levels of poverty by using state resources to supplement EANS funds, please note that the State must adhere to the provisions of article XI, section 4 of the South Carolina Constitution.

- Other factors that the State demonstrates support an alternate significant poverty percentage. *If selected, please identify the measure(s) and associated data and explain how these data support the proposed alternate significant percentage.*
Click here to enter text.

3. Identify the factor or factors the State will use to determine which non-public schools are most impacted by the COVID-19 emergency (check one or more of the following).

- The number of COVID-19 infections per capita in the community or communities served by the non-public school.
- The number of COVID-19 related deaths per capita in the community or communities served by the non-public school.
- Data on the academic impact of lost instructional time and the social, emotional, and mental health impacts on students attending the non-public school attributable to the disruption of instruction caused by the COVID-19 emergency.
- The economic impact of the COVID-19 emergency on the community or communities served by the non-public school.

4. Identify any additional factors the State will use to determine which non-public schools are most impacted by the COVID-19 emergency.

Click here to enter text.

5. Identify the source(s) of poverty data the State will use to determine counts of students from low-income families⁴ in non-public schools, provided that the poverty threshold is consistent across sources (check one or more of the following).

- Data on student eligibility for free or reduced-price lunch under the Richard B. Russell National School Lunch Act (43 U.S.C. 1751 et seq.).
- Data from the E-rate program administered by the Federal Communications Commission (47 CFR 54.500, 54.505(b)).
- Data from a different source, such as scholarship or financial assistance data.
- Data from a survey developed by the SEA.

⁴ To be counted as a student from a low-income family for the purposes of the ARP EANS program, a student must be aged 5 through 17 from a family whose income does not exceed 185 percent of the 2020 Federal poverty level.

ARP EMERGENCY ASSISTANCE TO NON-PUBLIC SCHOOLS PROGRAM

PART C: PROGRAMMATIC, FISCAL, AND REPORTING ASSURANCES

The Governor or his/her authorized representative assures the following:

- Funds will be used to provide services or assistance to non-public schools to address educational disruptions resulting from the COVID-19 emergency consistent with Section 2002 of the American Rescue Plan Act of 2021 (ARP Act), applicable provisions of Section 312(d) of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act), and all other applicable requirements. Consistent with Section 2002(b) of the ARP Act, funds may not be used to provide reimbursements to any non-public school.

The SEA will distribute information about the ARP EANS program to non-public schools and make an application easily available no later than 30 days after receipt of the ARP EANS funds, which is also the same time as the Governor receives the grant award. The SEA will process each non-public school application promptly but no later than 30 days after the SEA receives the application from a non-public school.
- The SEA will ensure that services or assistance are provided only to eligible non-public schools that enroll a significant percentage of students from low-income families and are most impacted by the COVID-19 emergency, consistent with the final requirements. To be eligible, a non-public school must--
 - be a non-public school that meets the definition of a non-public school in section 316(6) of the CRRSA Act and the eligibility requirement in section 312(d)(9) of the CRRSA Act;

- The SEA will, to the extent practicable, obligate all ARP EANS funds in an expedited and timely manner, but not later than six months after receiving the funds.
- The SEA will ensure the control of funds for the services or assistance provided to a non-public school, and title to materials, equipment, and property purchased with ARP EANS funds will be in a public agency and a public agency will administer such funds, services, assistance, materials, equipment, and property.
- The SEA will ensure that all services or assistance provided under the ARP EANS program, including materials, equipment, and any other items, will be secular, neutral, and non-ideological.
- The SEA will not use ARP EANS funds to provide direct or indirect financial assistance to scholarship-granting organizations or related entities for elementary or secondary education or to provide or support vouchers, tuition tax credit programs, education savings accounts, scholarships, scholarship programs, or tuition-assistance programs for elementary or secondary education, except for students who receive or received such assistance under the Governor's Emergency Education Relief (GEER I) Fund under the Coronavirus Aid, Relief, and Economic Security (CARES) Act for the 2020-2021 school year, and only for the same assistance provided such students.

- The Governor will comply with all reporting requirements at such time and in such manner and containing such information as the Secretary may reasonably require. (See also 2 CFR 200.328-200.329).
- The SEA and any entity providing services of assistance under the ARP EANS program will cooperate with any examination of records by making records available for inspection, production, and examination, and authorized individuals available for interview and examination, upon the request of (i) the Department and/or its Inspector General; or (ii) any other Federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.
- The Governor will return to the Secretary any funds received under the ARP EANS program that the Governor does not award or obligate within one year of receiving such funds.
- The Governor has consulted with the SEA on the application, particularly the assurances herein.

Appendix C: Final Requirements

(a) **In general.** A State educational agency (SEA) must provide services or assistance under the Emergency Assistance to Non-Public Schools (EANS) program, as authorized by the American Rescue Plan Act of 2021 (ARP Act), in accordance with the requirements applicable to the EANS program under section 312(d) of division M of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act), except that--

- (1) An SEA may provide such services or assistance only to an eligible non-public school that enrolls a significant percentage of students from low-income families and is most impacted by the COVID-19 emergency; and
- (2) An SEA may not use such funds to provide reimbursements to any non-public school.

(b) **Determining non-public schools to be served.**

(1) To provide services or assistance to a non-public school under paragraph (a), an SEA must determine, consistent with the State's approved application for EANS funding under the ARP Act, that the school--

- (i) Enrolls a significant percentage of students from low-income families in accordance with paragraphs (b)(2) and (c) of this section; and
- (ii) Is most impacted by the COVID-19 emergency in accordance with paragraph (b)(3) of this section.

(2) A non-public school enrolls a significant percentage of students from low-income families if the percentage of students from low-income families enrolled in such school meets or exceeds--

- (i) 40 percent; or
- (ii) An alternate significant percentage approved by the Secretary in the State's application for EANS funding under the ARP Act that is based on circumstances in the State, which may be--

- (A) The State's average percentage of students from low-income families in public and non-public schools;
- (B) The average percentage of students from low-income families in non-public schools in the State that, for example, applied for or participated in the EANS program as authorized by the CRRSA Act; or
- (C) Other factors that the State demonstrates support an alternate significant poverty percentage.

(3)(i) A non-public school is most impacted by the COVID-19 emergency based on one or more of the following factors--

- (A) The number of COVID-19 infections per capita in the community or communities served by the non-public school;
- (B) The number of COVID-19-related deaths per capita in the community or communities served by the non-public school;
- (C) Data on the academic impact of lost instructional time and the social, emotional, and mental health impacts on students attending the non-public school attributable to the disruption of instruction caused by the COVID-19 emergency; or
- (D) The economic impact of the COVID-19 emergency on the community or communities served by the non-public school.

(ii) In addition to using one or more of the factors identified in paragraph (b)(3)(i), an SEA may use other factors included in the State's approved application for EANS funding under the ARP Act to determine that a non-public school is most impacted by the COVID-19 emergency.

(4) An SEA must publish on its website, on or before the date it makes applications for EANS services or assistance under the ARP Act available to non-public schools, the State's approved--

- (i) Minimum percentage to determine whether a non-public school enrolls a significant percentage of students from low-income families;

- (ii) The source(s) of poverty data the State will use to determine counts of students from low-income families in a non-public school; and
- (iii) Factors to determine whether a non-public school is most impacted by the COVID-19 emergency.

(c) Determining low-income counts.

(1) To be counted as a student from a low-income family for purposes of this section, a student must be aged 5 through 17 from a family whose income does not exceed 185 percent of the 2020 Federal poverty level.

(2) To obtain a count of students from low-income families enrolled in a non-public school under paragraph (c)(1), an SEA may use one or more of the following sources of data, provided the poverty threshold is consistent across sources--

- (i) Data on student eligibility for free or reduced-price lunch under the Richard B. Russell National School Lunch Act (43 U.S.C. 1751 et seq.);
- (ii) Data from the E-rate program administered by the Federal Communications Commission (47 CFR 54.500, 54.505(b));
- (iii) Data from a different source, such as scholarship or financial assistance data; or

Appendix D: State Allocation Data

Section 2002 of the American Rescue Plan Act of 2021 (ARP Act) appropriated \$2,750,000,000 for a second round of allocations under the Emergency Assistance to Non-Public Schools (EANS) program authorized in section 312(d) of the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act). Section 312(d) of the CRRSA Act requires the Department to allocate EANS funds on the basis of each State's relative number of children aged 5 through 17 at or below 185 percent of poverty who are enrolled in non-public schools in the State. The Department used school enrollment and poverty data from the American Community Survey (ACS) 5-Year (2015-2019) Public Use Microdata Sample (PUMS) to determine the relative shares of such children in each State. Section 312(d)(5) of the CRRSA Act specifies that States receiving EANS funds may reserve not more than the greater of \$200,000 or one-half of 1 percent of such funds for administrative costs. The following table shows each State's ARP EANS allocation as well as the maximum reservation allowed for administration.

Note that while the EANS appropriation under the ARP Act is the same as under the CRRSA Act (\$2,750,000,000), the allocations below differ from the initial round of EANS allocations under the CRRSA Act. This is because the EANS allocations authorized under section 312(d) of the CRRSA Act were based on ACS PUMS private school enrollment and poverty data for the 2014-2018 5-year period. The ACS has since released updated school enrollment and poverty data for the 2015-2019 5-year period, and the Department determined that use of the updated data would be most consistent with the statutory requirements of the EANS program, which call for allocations to be based on the "best available data."
