I. LETTER TO THE APPLICANT

Dear Applicant:

Thank you for your interest in the Magnet Schools Assistance Program (MSAP), administered by the Office of Elementary and Secondary Education, School Choice & Improvement Programs of the U.S. Department of Education (Department). MSAP, authorized under the Elementary and Secondary Education Act of 1965 (ESEA), as amended, provides funding to local educational agencies to assist with desegregation of schools through the implementation of magnet schools designed to reduce, eliminate, or prevent minority group isolation, assist in the achievement of systemic reforms, and allow all students to meet challenging academic content and student achievement standards.

I invite you to take advantage of this unique opportunity to design and develop new magnet schools, or to revise and further implement existing magnet schools, that assist your district in achieving the goals of your desegregation plans and which provide more students with access to diverse learning environments; address minority group isolation; provide equitable access to innovative practice; and provide families in your communities with more choices of educational environments that build the knowledge and skills their children need to be successful. Please visit our program website at https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/school-choice-improvement-programs for more information about the MSAP program.

The Department expects to award up to $135,000,000 in FY 2022 for new grants based on the Administration’s request of $149,000,000 for the MSAP program. We will award discretionary grants on a competitive basis for a project period of up to 60 months. Before submitting your application, please thoroughly review the Notice Inviting Applications (NIA) for FY 2022 published in the Federal Register, especially the selection criteria, requirements, competitive preference priorities, and all of the application instructions. An application will not be evaluated for funding if the applicant does not comply with all of the procedural rules that govern the submission of the application, or the application does not contain the information required under the program (EDGAR §75.216 (b) and (c)).

Finally, the Department will be able to develop a more efficient process for reviewing grant applications if it has a better understanding of the number of entities that intend to apply for funding under this competition. Therefore, we encourage potential applicants to notify us of their intent to submit an application by emailing msap.team@ed.gov with the subject line, “[LEA Name(s)] Intent to Apply” by March 24, 2022.

If you have any questions about the program after reviewing the application package, please contact Gillian Cohen-Boyer by telephone at (202) 401-1259 or via e-mail at msap.team@ed.gov.

Sincerely,

Elson Nash, Director
School Choice & Improvement Programs

III. THE APPLICATION PROCESS

The following is a brief overview of the application process for the Magnet Schools Assistance Program (MSAP):

Getting Started
All interested applicants should first thoroughly review the Notice Inviting Applications (NIA) for FY 2022 published in the Federal Register. The NIA provides the following helpful information:

- Background information and purpose of the program;
- Eligibility requirements;
- Competitive Preference and Invitational Priorities;
- Selection Criteria and assigned points;
- Instructions on how to electronically submit the application.

Applicants should pay close attention to the Selection Criteria as applications will be evaluated and scored against these criteria.

Pre-Application Webinar Information
The Department intends to provide technical assistance to interested applicants. Detailed information regarding technical assistance webinars will be provided on the program website and a recording of each webinar will be available on the website following the session(s).

These technical assistance webinars will cover, at a minimum:

- The NIA and Application Process
- Desegregation Plans and MSAP programming
- Logic Models
- Evidence-based Programming and Evaluation Studies

Completing and Submitting Your Application
A complete application consists of the following components:

- Abstract Narrative;
- Project Narrative;
- Budget Narrative;
- Appendices and Required Forms, including
  - MSAP Specific Desegregation Plan Forms and Assurances and
  - Federally Required Certifications and Attestations.

Each component is discussed in detail in the subsequent pages of this application package. Once the application is complete, it must be submitted electronically using the Grants.gov application system. A detailed discussion of Grants.gov may also be found in the subsequent pages of this application package. Applicants are encouraged to familiarize themselves with this system and to submit their applications early.

All MSAP applications must be received on or before April 25, 2022.
It is mandatory for applicants to use Grants.gov. We strongly encourage you to familiarize yourself with and register for the Grants.gov system and submit early. Only applications submitted in a timely manner using Grants.gov will be considered for funding.

Please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on December 27, 2021 (86 FR 73264) and available at www.federalregister.gov/d/2021-27979. Please note that these Common Instructions supersede the version published on February 13, 2019, and, in part, describe the transition from the requirement to register in SAM.gov a Data Universal Numbering System (DUNS) number to the implementation of the Unique Entity Identifier (UEI). More information on the phase-out of DUNS numbers is available at www2.ed.gov/about/offices/list/ofo/docs/unique-entity-identifier-transition-fact-sheet.pdf.

We strongly recommend that you do not wait until the last day to submit your application. Late applications will not be accepted. The Department is required to enforce the established deadline to ensure fairness to all applications. The time it takes to upload the narratives for your application will vary depending on a number of factors including the size of the files and the speed of your Internet connection. If you try to submit your application after 11:59 p.m. Eastern Time on the deadline date, the Grants.gov system will not accept it.

Please note that U.S. Department of Education grant application deadlines are 11:59 p.m. Eastern Time. No changes or additions to an application will be accepted after the deadline date and time.

The abstract narrative must not exceed one page and should use language that will be understood by a range of audiences.

For all projects, include the project title, major project goals and objectives, and the names of the magnet schools that will participate in the project, whether the magnets are new or revised, a brief description of the special curricular program(s) (e.g., Math and Science, Montessori, Performing Arts, etc.) that each magnet school will implement, including if the program is school wide or a school within a school, and the number of students expected to participate in each magnet school program.

Instructions for Application/Project Narrative

Project Narrative Attachment Form (found in the Grants.gov application package) – This is where applicants will attach their narrative responses to the Competitive Preference and Invitational Priorities as well as a response to the Selection Criteria laid out in the notice inviting applications (NIA).

This part of the application constitutes the portion of the application that is subject to the suggested page limit described in the Federal Register NIA for this competition.

To facilitate the review of your MSAP application, we recommend that you address the Priorities to which you are responding and then the selection criteria in the order in which they appear in the Federal Register NIA for this competition.

Additional Information Regarding the Evaluation Selection Criteria

Section IV (4) and (5) of the NIA outlines reporting requirements, should the applicant be successful in obtaining an award. In your response to the selection criteria under evaluation you will want to take these requirements into consideration. At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. For specific requirements on grantee reporting, please refer to the ED Grant Performance Report (ED 524-B Form) at:
http://www.ed.gov/fund/grant/apply/appforms/appforms.html and see below for further details:

Evidence of Promise Study:

If awarded a grant, applicants must also submit a final evaluation report addressing the study to produce promising evidence which is referred to under selection criterion factor (e)(3). It is not required that the final evaluation report addressing the study to produce promising evidence be related to the study or intervention described above for Competitive Preference Priority 2, however it may be.
The Evidence of Promise Study should be seen as a tool to assist a potential grantee in meeting one of the purposes of the MSAP grant which is to improve the LEA’s capacity to continue operating magnet schools at high performance levels beyond the period of funding. On an annual basis, grantees will be asked to submit information on the progress of the Study in preparation for the Final Report due at the end of the grant, which will address the following five core elements:

1. **Study intervention** – What is being evaluated (schools, component of program)?
2. **Study goals** – What are the research questions?
3. **Study contrast** – How is the study sample comprised? What is the comparison condition? Is the study sample of sufficient size (e.g., number of students, teachers, or schools) that there is adequate statistical power to detect relationships or effects?
4. **Measurement** – What are the key outcome measures? What data will be collected, and when will they be collected?
5. **Analysis approach** – What model(s) will be used? How will missing data be handled? Are there relevant subgroup analyses? Which sensitivity tests are necessary?

**Performance Reporting**

The MSAP program has established six program-wide performance measures on which grantees will report annually, in addition to project-specific measures, to assess progress toward meeting the purpose of the MSAP. Three are annual measures and three are long-term measures.

1. The number and percentage of magnet schools receiving assistance whose student enrollment eliminates, reduces, or prevents MGI.
2. The percentage increase of students from major racial and ethnic groups in magnet schools receiving assistance who score proficient or above on State assessments in reading/language arts as compared to the previous year.
3. The percentage increase of students from major racial and ethnic groups in magnet schools receiving assistance who score proficient or above on State assessments in mathematics as compared to the previous year.
4. The percentage of MSAP-funded magnet schools still operating magnet school programs three years after Federal funding ends.
5. The percentage increase of students from major racial and ethnic groups in MSAP-funded magnet schools still operating magnet school programs who score proficient or above on State assessments in reading/language arts three years after Federal funding ends as compared to the final project year.
6. The percentage increase of students from major racial and ethnic groups in MSAP-funded magnet schools still operating magnet school programs who score proficient or above on State assessments in mathematics three years after Federal funding ends as compared to the final project year.

**Additional Instructions for Competitive Priorities 2, 3, and 5.**

If you choose to apply for these specific Competitive Preference Priorities, there are additional
documents required. These are:

- For Competitive Preference Priority 2 - “Evidence Supporting New and Revised Projects” you should complete and attach Table 5, the information contained in the Optional Evidence Form (available in grants.gov), and up to two studies as described below.
- For Competitive Preference Priority 3 – “Selection of Students,” you should also complete and attach Table 6.
- For Competitive Preference Priority 5 – Applicants must also submit a Joint Letter of Application as described in EDGAR, 34 CFR 75.128.

The information needed to respond to these priorities is not subject to the suggested page limit that applies to the application/project narrative part of the application. Further information regarding each of these follows.

Information for Competitive Preference Priority 2 - Evidence Supporting New and Revised Projects – Table 5 and Evidence Form

Title IV, Part D, Section 4406(B) of ESEA directs the Secretary to prioritize programs that propose to (1) carry out a new evidence-based (as defined in the notice) magnet school program; (2) significantly revise an existing magnet school program using evidence-based methods and practices, as available; or (3) replicate an existing magnet school program that has a demonstrated record of success in increasing student academic achievement and reducing isolation of minority groups.

Table 5 – New or Revised Magnet Schools
This Table should be included in the applicant’s submission if you choose to seek competitive priority points under Competitive Preference Priority 2.

Specific instructions are included in the form. The questions are designed to help applicants identify if the schools included in the proposed project are considered new or revised programs, and if revised, the significance of the revision. An example of this form follows:

</tr>
<tr>
<td>- For each existing magnet school the applicant proposes to revise, briefly describe the nature of the change that is being made to the magnet school program at that school (for example, expansion of program from PWS serving 50 students to whole-school program serving 400 students; adding medical sciences within school to complement other PWS and serve greater total number of students; upgrade thematic curriculum to maintain program attractiveness; replace existing magnet program, etc.); and</td>

- Explain the significance of the revision to the magnet school. Relevant information might include, for example, discussion of diminishing effectiveness of the existing program; what would be accomplished or achieved as a result of the revision to the magnet program; changes in the number of students participating in the existing program; the expected benefits or effects that would result from implementation of the revision; the need, if appropriate, to expand from a within-school program to a whole-school program; etc.
- Provide evidence as described in the Application Package to demonstrate that the school(s) are evidence based.
- Use additional sheets, if necessary.

**Submitting Evidence and the Evidence Form**

Applicants applying for Competitive Preference Priority 2 should specify the intervention(s) in the study or studies that you plan to implement and the findings within the citations that you are requesting to be considered as evidence-based, including page number(s) of specific applicable tables in those citations. The Department will not consider a study citation or citations that you fail to clearly identify for review. **No more than two studies** may be submitted under this part.

In addition to referencing the study citation(s) in the application narrative, **you must include a link a publicly available copy of the original study. References to the citation(s) without the provision of publicly accessible links cannot be accepted.** If the Department determines that an applicant has provided insufficient information, the applicant will not have an opportunity to provide additional information at a later time.

To provide citation information, we recommend using the optional Evidence Form—1894-0001 in Grants.gov to provide the descriptive information required when submitting evidence. You will want to provide the citation, citation outcome(s), and relevance to proposed project in your response to Competitive Preference Priority 2. The example optional Evidence Form provided
below provides several helpful examples of the information to be submitted, including 1) the rating the Citation received if reviewed by the What Works Clearing House; 2) the Citation Outcomes including, how those outcomes are statistically significant and how they relate to the intended outcomes in your project; and 3) more specifically, the relevance of the intervention used in the study to your proposed MSAP project, such as whether the study speaks to the overall program design or specific elements of your project; if your evaluation will measure the same outcomes as the cited study; or the degree to which they population your project intends to serve is similar to the population described in the study?

To identify relevant evidence to support your submission for Competitive Priority 2, you may want to visit the What Works Clearinghouse at [https://ies.ed.gov/ncee/wwc/FF]. Further information on how to use the What Works Clearinghouse resources can be found here at [https://ies.ed.gov/ncee/wwc/Resources/AboutWWC], as well as up to date Handbooks on the Standards and Procedures used by the Clearinghouse in reviewing relevant studies and interventions at [https://ies.ed.gov/ncee/wwc/Handbooks].

   b. Relevant Outcome(s)/Relevant Finding(s). For Demonstrates a Rationale, describe how the research or evaluation findings suggest that the project component included in the logic model is likely to improve relevant outcomes. For Promising, Moderate and Strong Evidence, describe: 1) the project component included in the study (or WWC practice guide or intervention report) that is also a component of your proposed project, 2) the student outcome(s) or other relevant outcome(s) that are included in both the study (or WWC practice guide or intervention report) and in the logic model (theory of action) for your proposed project, and 3) the study (or WWC intervention report) finding(s) or WWC practice guide recommendations supporting a favorable relationship between a project component and a relevant outcome. Cite page and table numbers from the study (or WWC practice guide or intervention report), where applicable.
   c. Project Component(s)/Overlap of Population and/or Settings. For Demonstrates a Rationale, explain how the project component(s) is informed by the research or evaluation findings. - If the process and use of academic examinations apply to more than one of the magnet schools include the name of each school in the “Magnet School(s)” field.
- Use additional sheets or space, if necessary.
- Information on the student selection processes used by other magnet schools (i.e., magnet schools that are not included in the project) is not needed.

Competitive Preference Priority 5 - Joint Application Information

If the application is a joint application between two or more local educational agencies to implement an inter-district magnet schools plan, the application must provide the information described in 34 CFR 75.128 concerning the agency that will be designated as the applicant and the agreement between members of the group.

Please note that per 34 CFR 74.129, all LEAs must provide legally required data, such as signed MSAP Assurance forms and LEA Enrollment Tables described in Section IV of this document.

Instructions for Budget Narrative

The Budget Narrative Attachment Form in the Grants.gov application package is where applicants attach budget information.

Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show the breakdown of the specific expenses attributable to each sub-project or activity for each budget category of a project year. If applicable to this program, provide the rate and base on which fringe benefits are calculated.

Additionally, in providing explanations and comments, applicants should identify planning costs, which are subject to limitations under Section 4408 of the MSAP Statute. Specifically, planning costs are limited to 50% of the amount awarded for the first year of the project; 15% for the second year of the project; and 15% for the third year of the project, and are not permissible in years 4 and 5. Planning costs would include, for example, any cost incurred in the first year of a project for a magnet school that would not begin to implement its program until the second year of the project. Applicants are reminded that evaluation costs and professional development costs are not considered to be planning costs.

NOTE: To ensure that students can access the magnet school and the school can draw a diverse student body despite segregated housing patterns, transportation is an allowable cost under MSAP. However, section 4407(A)(9) stipulates that the costs of such transportation must not represent a significant portion of the grant funds received by an local education agency (LEA) and must be sustainable beyond the grant period. If your budget includes funds for students’ transportation to and from the magnet school, please stipulate this clearly in your budget narrative and detail how your LEA will be able to meet the requirements of section 4407(A)(9).

Finally, if you are requesting reimbursement for indirect costs on line 10, specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied and include a copy of LEA’s approved indirect cost rates. Provide other explanations or comments you deem necessary.
Instructions for Other Documents & Attachments

Logic Model
As described in the NIA, in the context of addressing the Selection Criteria for this program, particularly the first section addressing Desegregation, it is recommended that applicants include a logic model depicting the connection between the proposed project activities and the Desegregation Plan goals summarized in the Desegregation Plan Summary Form described above.

Resumes
Provide individual resumes for the proposed project directors and other key personnel described in project narrative. Provide brief resumes or, for positions that would be filled after a grant is awarded, job descriptions that include relevant qualifications for the individual(s) that the district would seek to recruit for those positions. Each resume should be limited to no more than three pages in length.

Letters of Support (Optional)
Applicants may choose to include letters from key stakeholders or partners, such as parent or educator organizations, community organizations, or other civic bodies, among others, to support their narrative response to the competition Selection Criteria or other specific aspects of their proposed projects.

A copy of the Desegregation Plan Form is available for download on the MSAP website at https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/school-choice-improvement-programs/magnet-school-assistance-program-msap/applicant-info-and-eligibility/ and an example is provides below.

To complete this form you will:

- Indicate in the first section whether you are implementing a required plan or a voluntary plan and attach copies of the appropriate documents as described in further detail in this section based on the type of desegregation plan being implemented.
- Provide summary information for the desegregation plan as outlined in the second Section of the form
- Have the third section, the Magnet School Assurances signed by the appropriate party and attach to the application with the components above.

An example of the form follows:

**Modifications to Plans:** If the applicant is implementing a previously approved plan that does not include the magnet school(s) for which assistance is requested, the plan must be modified to include the new magnet school(s). The applicant must obtain approval of the new magnet schools, or any other modification to its desegregation plan, from the court, agency or official that originally approved the plan. The date by which proof of approval of any desegregation plan modification must be submitted to the US Department of Education is identified in the closing date notice. Any required desegregation plan modification should be received by **June 22, 2022**, and should be scanned and emailed to Gillian Cohen-Boyer at msap.team@ed.gov or mailed to her at U.S. Department of Education; Office of Elementary and Secondary Education; 400 Maryland Avenue SW; Washington, DC 20202-5970.

<th>2. Desegregation Plan Summary</th>
</tr>
</thead>
<tbody>
<tr>
<td>Please submit a summary of your desegregation plan demonstrating that the plan will reduce, eliminate, or prevent minority group isolation (MGI) in a magnet school or feeder school with substantial proportions of minority students.</td>
</tr>
</tbody>
</table>

Please note that in the context of MSAP, MGI describes situations in which the enrollment of a particular group of minority students is so high within a school that exposure to students of other races is limited. Also, the term “feeder schools,” is not used in the traditional sense, but rather refers to the schools that students attending magnet schools would otherwise have attended had the magnet school not been available.

Finally, the definition of minority groups can be found in MSAP’s regulations at 20. U.S.C. 280.

The summary should be no more than two pages and identify or describe:

- The overarching goals of the desegregation plan.
- The definition or description of minority group isolation in the LEA(s).
- Each elementary or secondary school (either proposed magnet schools or their feeders) in which the project is intended to reduce, prevent, or eliminate minority group isolation.
- The racial/ethnic group(s) targeted for reducing, eliminating, or preventing minority group isolation at each MSAP school or (if the minority group isolation being addressed is occurring at one or more feeders) feeder.
• How each school being targeted for the reduction, prevention, or elimination of minority group isolation fits into the LEAs’ school configuration and enrollment patterns.

• How the development or revision of magnet schools proposed in the desegregation plan is designed—by strategic placement of programming, selection of special curricula, targeted recruitment or otherwise—to effectively prevent, reduce, or eliminate minority group isolation in elementary or secondary schools with substantial proportions of minority students.

3. Magnet Schools Assistance Program Assurances

In accordance with section 4405(b)(2) of the ESSA, the applicant hereby assures and certifies that it will——

(A) use grant funds under this part for the purposes specified in section 4401(b);

(B) employ highly qualified teachers in the courses of instruction assisted under this part;

(C) not engage in discrimination based on race, religion, color, national origin, sex, or disability in the hiring, promotion, or assignment of employees of the applicant or other personnel for whom the applicant has any administrative responsibility;

(D) not engage in discrimination based on race, religion, color, national origin, sex, or disability in the assignment of students to schools, or to courses of instruction within the schools, of such applicant, except to carry out the approved plan;

(E) not engage in discrimination based on race, religion, color, national origin, sex, or disability in designing or operating extracurricular activities for students;

(F) carry out a high-quality education program that will encourage greater parental decision-making and involvement; and

(G) give students residing in the local attendance area of the proposed magnet school program equitable consideration for placement in the program, consistent with desegregation guidelines and the capacity of the applicant to accommodate the students.

* * * * * * * * * * * *

If the applicant has an approved desegregation plan, the applicant hereby assures and certifies that it is implementing that desegregation plan as approved.
Tables 1 – 4—Enrollment Data

These tables provide current and projected enrollment data for the LEA, the magnet schools included in the project, and the schools from which students would be drawn (feeder schools), which is required pursuant to 34 C.F.R. §280.20(f).

Tables 1-4 are located on the MSAP website at [https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/school-choice-improvement-programs/magnet-school-assistance-program-msap/applicant-info-and-eligibility/](https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/school-choice-improvement-programs/magnet-school-assistance-program-msap/applicant-info-and-eligibility/). Please download the forms, complete the forms, “save as” the table number, and upload the completed forms as an attachment to the rest of the application in Grants.gov. Note: A separate copy of Table 3 will be needed for each magnet school included in the project.

Specific instructions for each Table are included on the form itself and further descriptions of these and examples of each are included below. Please note that while this information is required, applicants that are unable to provide some portion of the data may provide other information to demonstrate that the creation or operation of its proposed magnet school would reduce, eliminate or prevent minority

**Table 1 - Magnet Schools Included in Project**

Table 1 requires applicants to list all of the magnet schools included in the project and indicate: whether they are whole school or programs within school magnets; whether they are proposed as new magnets or are existing magnets; and for existing magnet schools—schools that already implement a magnet program, regardless of whether the magnet program has been previously supported by MSAP funds—the school year in which the school began implementation of a magnet program.

- Please list each magnet proposed for development, expansion, and/or implementation as part of the application.
- Indicate if the proposed magnet will be a whole-school magnet or a magnet program within a school.
- Please indicate whether the magnet will be newly created as part of the MSAP project or is an existing magnet being further developed or revised. If the magnet is existing, indicate the first year it was implemented.

Table 2 - Enrollment Data for the Local Educational Agency (LEA)

Table 2 requires applicants to provide LEA-level enrollment data for the current school year and projected enrollment for five subsequent school years.

First provide actual enrollment data for the current school year as of October 1, 2021 (or the closest date to October 1, 2021, when the LEA’s enrollment data was collected) for the grade levels (e.g., PK-8, as applicable) affected by the project. Enrollment data must be disaggregated by race and ethnicity.

Then, provide enrollment data for the grade levels affected by the magnet project that shows the projected number of students as of October 1, 2022 (Project Yr. 1: School Yr. 2022-2023), October 1, 2023 (Project Yr. 2: School Yr. 2023-2024), October 1, 2024 (Project Yr. 3: School Yr. 2024-2025), October 1, 2025 (Project Yr. 4: School Yr. 2025-2026), and October 1, 2026 (Project Yr. 5: School Yr. 2026-2027). This enrollment data also must be disaggregated by race and ethnicity.

Note:
- All current or past enrollment data must be complete, accurate, and disaggregated by race and ethnicity. Applicants may not submit suppressed data.
- Enrollment projections should assume full implementation of the project consistent with the description, including timelines, outlined in the application.
- The narrative of the application should explain any enrollment projections that show inconsistent trends or dramatic changes in enrollment data.
**Table 2: Enrollment Data-LEA Level OMB-1855-0011- Expiration 07/31/2022**

- All LEAs (individually or as part of a consortium) should provide current data as of October 1, 2021, and projected data for Project Years 1-5 (October 1, 2022-2026).
- Only provide data for the grade spans covered by the magnet schools being implemented as part of the proposed project.
- For projected data, assume implementation of MSAP and provide realistic and logical data, consistent with data elsewhere in the application, to the extent possible.

Table 3 - Enrollment Data for the Magnet Schools Included in the Project

Table 3 requires applicants to provide, for all magnet schools included in the project, enrollment data for the current school year and projected enrollment for five subsequent school years.

First, provide actual enrollment data as of October 1, 2021 (or the closest date to October 1, 2021, when the LEA’s enrollment data was collected) by grade for each magnet school included in the project. This enrollment data must be disaggregated by race and ethnicity.

Then, provide projected enrollment data by grade for each magnet school that shows the projected number of students as of October 1, 2022 (Project Yr. 1: School Yr. 2022-2023), October 1, 2023 (Project Yr. 2: School Yr. 2023-2024), October 1, 2024 (Project Yr. 3: School Yr. 2024-2025), October 1, 2025 (Project Yr. 4: School Yr. 2025-2026), and October 1, 2026 (Project Yr. 5: School Yr. 2026-2027). This enrollment data also must be disaggregated by race and ethnicity.

Note:

- If the proposed magnet school is a new school and therefore there is no enrollment for the 2021-2022 school year, provide an estimate of the enrollment that the school would have had for the 2021-2022 school year if it had operated as a regular school, consistent with the applicant’s policy for assigning students to regular non-magnet schools.
- If the proposed project is magnet program within a school, rather than a whole school magnet, please provide data for the proposed program here and data for the whole school as a feeder school in Table 4.
- All actual enrollment data must be complete, accurate, and disaggregated by race and ethnicity. Applicants may not submit suppressed data.
- Enrollment projections should assume full and successful implementation of the project consistent with the description, including timelines, outlined in the application.
- The narrative of the application should explain any enrollment projections that show inconsistent trends or dramatic changes in enrollment data. For example, if you project that enrollment of African American students will decline in year one, increase in year two, and decline again in year three, please provide an explanation.
- Enrollment projections should be consistent with the minority group isolation annual targets reflected in the applicant’s performance measures.

- Data for Project Years 1, 2, 3, 4, and 5 should be based on the anticipated enrollment of the magnet school if the project is successfully implemented. Projected data should be realistic, logical, and consistent with other data found in the application.

Table 4 - Enrollment Data for Feeder Schools

Table 4 asks applicants to provide, for all feeder schools, enrollment data for the current school year and projected enrollment data for five subsequent school years. It is important to note that the Magnet Schools Assistance Program defines “feeder schools” as the schools from which students are drawn—that is, the schools at the same grade level as the magnet school that students would have attended if they did not attend the magnet school.

First, provide actual enrollment data as of October 1, 2021 (or the closest date to October 1, 2021, when the LEA’s enrollment data was collected) for each feeder school that shows the number of students enrolled in those schools and identifies the magnet school(s) associated with each feeder school. This enrollment data must be disaggregated by race and ethnicity.

Provide projected enrollment data for the feeder schools identified above that shows the projected number of students as of October 1, 2022 (Project Yr. 1: School Yr. 2022-2023), October 1, 2023 (Project Yr. 2: School Yr. 2023-2024), October 1, 2024 (Project Yr. 3: School Yr. 2024-2025), October 1, 2025 (Project Yr. 4: School Yr. 2025-2026), and October 1, 2026 (Project Yr. 5: School Yr. 2026-2027). This enrollment data must be disaggregated by race and ethnicity.

Note:
- All actual enrollment data must be complete, accurate, and disaggregated by race and ethnicity. Applicants may not submit suppressed data.
- If the proposed magnet is program within a school, please provide data for the proposed magnet program in Table 3 and for the whole school here.
- If the application is a joint application, you must provide separate data for the feeder schools from each participating LEA.
- Enrollment projections should assume full and successful implementation of the project consistent with the description, including timelines, outlined in the application.
- The narrative of the application should explain any enrollment projections that show inconsistent trends or dramatic changes in enrollment data. For example, if you project that enrollment of African American students will decline in year one, increase in year two, and decline again in year three, please provide an explanation.
- Enrollment projections should be consistent with the minority group isolation annual targets reflected in the applicant’s performance measures.
Table 4: Enrollment Data-Feeder School(s) OMB-1855-0011- Expiration 07/31/2022

- For MSAP, feeders are the school(s) students would have attended had the magnet not existed. For each magnet, identify the feeder school(s) that are expected to send students. If a feeder school would send students in a particular grade span to all participating schools, indicate “All” in the magnet column.
- Include whole-school data for any magnets reported as PWS in Table 3.
- Data projections for Project Years 1 through 5 should show the expected enrollment of feeder school(s) if the school(s) in the project are successfully implemented.

VI. Definitions for U.S. Department of Education
Supplemental Information for the SF-424 Application for Federal Assistance

Definitions:

NEW POTENTIAL GRANTEE OR NOVICE APPLICANT

New Potential Grantee: The definition of New Potential Grantee is set in the program competition’s Notice Inviting Applications (NIA). The New Potential Grantee priority is from the Department’s Administrative Priorities for Discretionary Grant Programs published in the Federal Register March 9, 2020 (85 FR 13640).

Novice Applicant: For discretionary grant programs, novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;

- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and

- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant’s project or funding period, including any extensions of those periods that extend the grantee’s authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above. The Novice Applicant priority is from 34 CFR 75.225, and it must be included in the program competition NIA to be claimed on the form.

QUALIFIED OPPORTUNITY ZONES

Definition: From 26 USC section 1400Z–1 of the Internal Revenue Code, which, in relevant part, defines “qualified opportunity zone” as “a population census tract that is a low-income community that is designated as a qualified opportunity zone.”

The Qualified Opportunity Zones priority is from the Department’s Final Priority for Discretionary Grant Programs published in the Federal Register November 27, 2019 (84 FR 65300).

Note: The Treasury Department has created a website of Opportunity Zones Resources that includes a searchable map: https://www.cdfifund.gov/Pages/Opportunity-Zones.aspx.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.”

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (i) information or biospecimens through intervention or interaction with the individual and uses, studies, or analyzes the information or biospecimens, or (ii ) obtains, uses, studies, analyzes, or generate identifiable private information or identifiable biospecimens.’’

If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. If an activity involves obtaining private information about a living person in such a way that the information can be directly or indirectly linked to that individual, the definition of human subject is met.

Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following eight categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, that specifically involves normal educational practices that are not likely to adversely impact students’ opportunity to learn required educational content or the assessment of educators who provide instruction. This includes most research on regular and special education...
Instructional strategies, and research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods. If an educational practice is being introduced to the site and is not widely used for similar populations, it is not covered by this exemption.

(2) Research that only includes interactions involving educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior (including visual or auditory recordings) if at least one of the following criteria is met: (i) the information obtained is recorded by the investigator in such a manner that the identity of the human subjects cannot readily be ascertained, directly or through identifiers linked to the subjects; (ii) Any disclosure of the human subjects’ responses outside the research would not reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, educational advancement or reputation; or (iii) the information obtained is recorded by the investigator in such a manner that the identity of the human subjects can readily be ascertained, directly or through identifiers linked to the subjects, and an Institutional Review Board (IRB) conducts a “limited IRB review” to make the determinations required by 34 CFR 97.111(a)(7).

If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed.

Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.

(3) Research involving benign behavioral interventions in conjunction with the collection of information from an adult subject through verbal or written responses (including data entry) or audiovisual recording if the subject prospectively agrees to the intervention and information collection and at least one of the following criteria is met: (A) The information obtained is recorded by the investigator in such a manner that the identity of the human subjects cannot readily be ascertained directly or through identifiers linked to the subjects; (B) Any disclosure of the human subjects’ responses outside the research would not reasonably place the subjects at risk of criminal or civil liability or be damaging to the subject’s financial standing, employability, educational advancement or reputation; or (C) The information obtained is recorded by the investigator in such a manner that the identity of the human subjects can readily be ascertained, directly or through identifiers linked to the subjects, and an IRB conducts a limited IRB review to make the determination required by 34 CFR 97.111(a)(7).

For the purpose of this provision, benign behavioral interventions are brief in duration, harmless, painless, not physically invasive, not likely to have a significant adverse lasting impact on the subjects, and the investigator has no reason to think the subjects will find the interventions offensive or embarrassing. Provided all such criteria are met, examples of such benign behavioral interventions would include having the subject play an online game, having them solve puzzles under various noise conditions, or having them decide how to allocate a nominal amount of received cash between themselves and someone else.

If the research involves deceiving the subjects regarding the nature or purposes of the research, this exemption is not applicable unless the subject authorizes the deception through a prospective agreement to participate in research in circumstances in which the subject is informed that he or she will be unaware of or misled regarding the nature or purposes of the research.

(4) Secondary Research for which Consent is not required. Secondary research uses of identifiable private information or identifiable biospecimens, if at least one of the following criteria is met: (i) The identifiable private information or identifiable biospecimens are publicly available; (ii) Information, which may include information about biospecimens, is recorded by the investigator in such a manner that the identity of the human subjects cannot readily be ascertained directly or through identifiers linked to the subjects, the investigator does not contact the subjects, and the investigator will not re-identify subjects; (iii) the research involves only information collection and analysis involving the investigators’ use of identifiable health information when that use is regulated under 45 CFR parts 160 and 164, subparts A and E, for the purposes of “health care operations” or “research” as those terms are defined at 45 CFR 164.501 or for “public health activities and purposes” as described under 45 CFR 164.512 (b); or (iv) The research is conducted by, or on behalf of, a Federal department or agency using government-generated or government-collected information obtained for nonresearch activities, if the research generates identifiable private information that is or will be maintained on information technology that is subject to and in compliance with section 208(b) of the E-Government Act of 2002, 44 USC 3501 note, if all of the identifiable private information collected, used or generated as part of the activity will be maintained in systems of records subject to the Privacy Act of 1974, 5 USC 552a, and, if applicable, the information used in the research was collected subject to the Paperwork Reduction Act of 1995, 44 USC 3501 et seq.

(5) Research and demonstration projects that are conducted or supported by a Federal department or agency, or otherwise subject to the approval of department or agency heads (or the approval of the heads of bureaus or other subordinate agencies that have been delegated authority to conduct the research and demonstration projects), and that are designed to study, evaluate, improve, or otherwise examine public benefit or service programs, including procedures for obtaining benefits or services under those programs, possible changes in or alternative to those programs or procedures, or possible changes in methods or levels of payment for benefits or services under those programs. Such projects include, but are not limited to, internal studies by Federal employees, and studies under
contracts or consulting arrangements, cooperative agreements, or grants. Exempt projects also include waivers of otherwise mandatory requirements using authorities such as sections 1115 and 1115A of the Social Security Act as amended.

Each Federal department or agency conducting or supporting the research and demonstration projects must establish, on a publicly accessible Federal website or in such other manner as the department or agency head may determine, a list of the research and demonstration projects that the Federal department or agency conducts or supports under this provision. The research or demonstration project must be published on this list prior to commencing the research involving human subjects.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

(7) Storage or Maintenance for Secondary Research for which Broad Consent is required. Storage or maintenance of identifiable private information or identifiable biospecimens for secondary research use if an IRB conducts a limited IRB review and makes the determinations requires by 34 CFR 97.111(a)(8).

(8) Secondary Research for which Broad Consent is Required. Research involving the use of identifiable private information or identifiable biospecimens for secondary research use if the following criteria are met: (i) Broad Consent for the storage, maintenance and secondary research use of the identifiable private information or identifiable biospecimens was obtained in accordance with 34 CFR 97.116(a)(1)-(4), (a) (6) and (d); (ii) Documentation of informed consent or waiver of documentation of consent was obtained in accordance with 34 CFR 97.117. (iii) an IRB conducts a limited IRB review and makes the determination that the research to be conducted is within the scope of the broad consent referenced in paragraph (d)(8)(i) of this section; and (iv) The investigator does not prevent an investigator from abiding by any legal requirements to return individual research results.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

A. Exempt Research Narrative.
If you marked “Yes” for item 3.b. and designated exemption numbers(s), attach the “exempt research” narrative to the U.S. Department of Education Supplemental Information for the SF-424 form. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.
If you marked “No” for item 3.b. you must attach the “nonexempt research” narrative to the U.S. Department of Education Supplemental Information for the SF-424 form. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. **SECTION C – BUDGET NARRATIVE** (see instructions)
Instructions for ED 524

(1) If you check "no" in (1), indicate in (3) if you want to use the de minimis rate of 10 percent of MTDC (see 2 CFR § 200.68). If you use the de minimis rate as the basis for determining the indirect cost rate charged, you must submit a separate proposal as directed in 2 CFR § 200.414(c).

(2) You may use the de minimis rate if you are a State, Local government, or Indian Tribe, or if your grant is funded under a training rate or restricted rate program.

(3) If you are applying for payment under a Restricted Rate Program (34 CFR 75.562 or 75.563), indicate whether you are using a restricted indirect cost rate that is included on your approved Indirect Cost Rate Agreement. If you are using a restricted indirect cost rate, the rate must be included in your budget. The rate used must be based on the rate that you are using.

(4) If you are applying for a grant under a Restricted Rate Program (34 CFR 75.562 or 75.563), indicate whether you are using a restricted indirect cost rate that is included on your approved indirect cost rate agreement. If you are using a restricted indirect cost rate, the rate must be included in your budget. The rate used must be based on the rate that you are using.

(6) For a Training Grant Program (ED 524), ED regulations limit non-governmental entities to the recovery of indirect costs on training grants to the grantee's actual indirect costs as determined by its negotiated rate agreement, or 8 percent of a MTDC, whichever is lower (see 2 CFR § 200.68(c)). The 8 percent limit also applies to cost-type contracts under grants if these contracts are for training as defined in 2 CFR § 200.68(a).

(7) If you are requiring reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, using direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you may multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplemental Grant Rates" (34 CFR 75.563) and grants under programs with "Supplemental Grant Rates" (34 CFR 75.563) and grants under programs with "Supplemental Grant Rates" (34 CFR 75.563). You must submit a separate proposal as directed in 2 CFR § 200.414(c).

Section C: Budget Narrative (Attach separate sheet(s))

Pay attention to applicable program specific instructions, if attached.

Section D: Limitation on Administrative Expenses

If your program is subject to an administrative cost cap (as indicated in Section III C of the program’s Notice Inviting Applications (NIA)), fill out this form as follows:

1. On the top of the page, list the percentage cap on administrative costs, and indicate whether your administrative cost cap applies to both indirect and direct costs, or only direct costs (from Section III C of the program’s NIA).

2. If the cost cap applies to both indirect and direct costs:

   (a) Fill out the entire table noting your administrative costs, including line 8. Line 8 is taken from Section A, line 10.
For lines 1-6, these are only direct administrative costs; do not include in lines 1-6 any costs included in your indirect cost rate. If your program has a matching requirement (see NIA), include in lines 1-6 the administrative portions of the applicable rows from both Section A and Section B. If there is no program matching requirement, only use Section A.

(b) Ensure that the line 10 percentage DOES NOT EXCEED the percentage cap on administrative costs. If your program does not have a matching requirement, divide line 9 by Section A line 12. If your program does have a matching requirement, to calculate line 10, divide line 9 by the sum of Section A line 12 and Section B line 12.

3. If the cost cap applies ONLY to direct costs:
   (a) Fill out the entire table noting your administrative costs, EXCLUDING line 8.
   Ensure that the line 10 percentage DOES NOT EXCEED the percentage cap on administrative costs. If your program does not have a matching requirement, divide line 7 by Section A line 9. If your program does have a matching requirement, to calculate line 10, divide line 7 by the sum of Section A line 9 and Section B line 9.

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about the following provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

(4) An applicant that proposes a project to increase school safety might describe the special efforts it will take to address concern of lesbian, gay, bisexual, and transgender students, and efforts to reach out to and involve the families of LGBT students

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

*Grants.gov Submission Procedures and Tips for Applicants*

To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

**Browser Support**

The latest versions of Microsoft Internet Explorer (IE), Mozilla Firefox, Google Chrome, and Apple Safari are supported for use with Grants.gov. However, these web browsers undergo frequent changes and updates, so we recommend you have the latest version when using Grants.gov. Legacy versions of these web browsers may be functional, but you may experience issues. Grants.gov no longer provides support for Microsoft Internet Explorer 9 or below.

For additional information or updates, please see the Grants.gov Browser information in the Applicant FAQs: [http://www.grants.gov/web/grants/applicants/applicant-faqs.html#browser](http://www.grants.gov/web/grants/applicants/applicant-faqs.html#browser)

**ATTENTION – Workspace, Adobe Forms and PDF Files**

Grants.gov applicants can apply online using Workspace. Workspace is a shared, online environment where members of a grant team may simultaneously access and edit different web forms within an application. For each funding opportunity announcement (FOA), you can create individual instances of a workspace. Below is an overview of applying on Grants.gov. For access to complete instructions on how to apply for opportunities, refer to: [https://www.grants.gov/web/grants/applicants/workspace-overview.html](https://www.grants.gov/web/grants/applicants/workspace-overview.html)

1) Create a Workspace: Creating a workspace allows you to complete it online and route it through your organization for review before submitting.

2) Complete a Workspace: Add participants to the workspace to work on the application together, complete all the required forms online or by downloading PDF versions, and check for errors before submission. The Workspace progress bar will display the state of your application process as you apply. As you apply using Workspace, you may click the blue question mark icon near the upper-right corner of each page to access context-sensitive help.
a. Adobe Reader: If you decide not to apply by filling out web forms you can download individual PDF forms in Workspace. The individual PDF forms can be downloaded and saved to your local device storage, network drive(s), or external drives, then accessed through Adobe Reader.

NOTE: Visit the Adobe Software Compatibility page on Grants.gov to download the appropriate version of the software at: https://www.grants.gov/web/grants/applicants/adobe-software-compatibility.html

b. Mandatory Fields in Forms: In the forms, you will note fields marked with an asterisk and a different background color. These fields are mandatory fields that must be completed to successfully submit your application.

c. Complete SF-424 Fields First: The forms are designed to fill in common required fields across other forms, such as the applicant name, address, and UEI Number. Once it is completed, the information will transfer to the other forms.

3) Submit a Workspace: An application may be submitted through workspace by clicking the Sign and Submit button on the Manage Workspace page, under the Forms tab. Grants.gov recommends submitting your application package at least 24-48 hours prior to the close date to provide you with time to correct any potential technical issues that may disrupt the application submission.

4) Track a Workspace Submission: After successfully submitting a workspace application, a Grants.gov Tracking Number (GRANTXXXXXXXX) is automatically assigned to the application. The number will be listed on the Confirmation page that is generated after submission. Using the tracking number, access the Track My Application page under the Applicants tab or the Details tab in the submitted workspace.

Helpful Reminders

1) REGISTER EARLY – Grants.gov registration involves many steps including registration on SAM (www.sam.gov), which usually takes approximately 7 to 10 business days, but can take longer, depending on the completeness and accuracy of the data entered into the SAM database by an applicant. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. Please note that once your SAM registration is active, it will take 24-48 hours for the information to be available in Grants.gov, and before you can submit an application through Grants.gov. For detailed information on the Registration Steps, please go to: http://www.grants.gov/web/grants/register.html [Note: Your organization will need to update its SAM registration annually.]

Until April 3, 2022, entities that are not already registered in SAM.gov and who wish to do business with the Federal Government must obtain and/or use a valid Data Universal
Numbering System number (DUNS) to register their entity in SAM.gov. On and after April 4, 2022, entities that are not registered in SAM.gov will be assigned a Unique Entity Identifier (UEI) when they register and will not need to use a DUNS for entity registration or reporting. If registering before April 4, 2022, you can obtain a DUNS number from Dun and Bradstreet at the following website: http://fedgov.dnb.com/webform. A DUNS number can be created within one to two business days.

Information about SAM is available at www.SAM.gov. To further assist you with registering in SAM or updating your existing SAM registration, see the Quick Start Guide for Grant Registrations and the Entity Registration Video at https://sam.gov/content/entity-registration.

2) SUBMIT EARLY – We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully to Grants.gov before 11:59:59 p.m. Eastern Time on the deadline date.

Note: If you registered in SAM prior to April 4, 2022, and submit your application before April 4, 2022, you must provide the DUNS number on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov. This DUNS number is typically the same number used when your organization registered in SAM. If you do not include the same DUNS number assigned by SAM on your application as the DUNS you registered with, Grants.gov will reject your application.

To submit successfully beginning on April 4, 2022, you must provide the UEI on your application that was used when you registered as an Authorized Organization Representative (AOR) on Grants.gov. This UEI is assigned to your organization in SAM at the time your organization registers in SAM, when that registration occurs after April 4, 2022. If you do not enter the UEI assigned by SAM on your application, Grants.gov will reject your application.

3) VERIFY SUBMISSION IS OK – You will want to verify that Grants.gov received your application submission on time and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 11:59:59 p.m. Eastern Time, on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned. Once the Department of Education receives your application from Grants.gov, an Agency Tracking Number (PR/award number) will be assigned to your application and will be available for viewing on Grants.gov’s Track My Application link.
If the date/time received is later than 11:59:59 p.m. Eastern Time, on the deadline date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: http://www.grants.gov/web/grants/applicants/encountering-error-messages.html. For more detailed information on troubleshooting Adobe errors, you can review the Adobe Reader Software Tip Sheet at: http://www.grants.gov/web/grants/applicants/adobe-software-compatibility.html. If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

Submission Problems – What should you do?
If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or email at:mailto:support@grants.gov or access the Grants.gov Self-Service Knowledge Base web portal at: https://grants-portal.psc.gov/Welcome.aspx?pt=Grants

If electronic submission is required, you must submit an electronic application before 11:59:59 p.m. Eastern Time, unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date. (See the Federal Register notice for detailed instructions.)

Helpful Hints When Working with Grants.gov

Dial-Up Internet Connections
When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an
exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)

Attaching Files – Additional Tips
Please note the following tips related to attaching files to your application:

- When you submit your application electronically, you must upload any narrative sections and all other attachments to your application as files in either Portable Document Format (PDF) or Microsoft Word. Although applicants have the option of uploading any narrative sections and all other attachments to their application in either PDF or Microsoft Word, we recommend applicants submit all documents as read-only flattened PDFs, meaning any fillable PDF files must be saved and submitted as non-fillable PDF files and not as interactive or fillable PDF files, to better ensure applications are processed in a more timely, accurate, and efficient manner.

- Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission. Therefore, each file uploaded to your application package should have a unique file name.

- When attaching files, applicants should follow the guidelines established by Grants.gov on the size and content of file names. Uploaded file names must be fewer than 50 characters, and, in general, applicants should not use any special characters. However, Grants.gov does allow for the following UTF-8 characters when naming your attachments: A-Z, a-z, 0-9, underscore, hyphen, space, period, parenthesis, curly braces, square brackets, ampersand, tilde, exclamation point, comma, semi colon, apostrophe, at sign, number sign, dollar sign, percent sign, plus sign, and equal sign. Applications submitted that do not comply with the Grants.gov guidelines will be rejected at Grants.gov and not forwarded to the Department.

- Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. For reference, the average discretionary grant application package with all attachments is less than 5 MB. Therefore, you may want to check the total size of your package before submission.
D-U-N-S Number Instructions

Please note that the Common Instructions above supersede the version published on February 13, 2019, and, in part, describe the transition from the requirement to register in SAM.gov a Data Universal Numbering System (DUNS) number to the implementation of the Unique Entity Identifier (UEI). More information on the phase-out of DUNS numbers is available at https://www2.ed.gov/about/offices/list/ofo/docs/unique-entity-identifier-transition-fact-sheet.pdf.

If you plan to submit your application prior to April 4, 2022, you will need to provide the applicant's D-U-N-S Number. Check with your fiscal office to see if your institution has an assigned D-U-N-S before contacting Dun & Bradstreet.

You can obtain your D-U-N-S Number at no charge by calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

The D-U-N-S Number is a unique nine digit number that does not convey any information about the recipient. A built-in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide. Live help Monday-Friday 8am-6pm (EST) Dial 1-888-814-1435.
