3. The extent to which the proposed project is part of a comprehensive effort to improve teaching and learning and support rigorous academic standards for students.

4. The extent to which the design of the proposed project reflects up-to-date knowledge from research and effective practice..

What is a Logic Model?

A **Logic Model**, also referred to as a theory of action, means a framework that identifies key project components of the proposed project (i.e., the active “ingredients” that are hypothesized to be critical to achieving the relevant outcomes) and describes the theoretical and operational relationships among the key project components and relevant outcomes.

- Logic models may communicate a project’s vision, objectives, and goals to their internal team and stakeholders.
 - Logic Models can also be used in program planning, implementation, evaluation, and communication.
 - Logic Models reflect the goals and activities in the grantee’s application.
 - Logic Models identify the grantee’s projects and each project’s expected outcome.
 - Logic Models identify sustainable changes for the grantee.
 - Logic models contain appropriate information to serve as a communication tool to grantee stakeholders.
