Consolidated State Performance Report

State: MT
School Year: 2014-15
Part: 1

Montana

Question Number	Issue Description
1.2. 1.3 1.9.3.1, 1.9.3.2, 1.9.3.3	Due to technical issues with Montana's assessment testing vendor, a number of students did not receive a valid score, and/or declined to participate in the assessments. As a result participation rates appear low for the 2014-15 school year. High School participation was notably lower due to several large high schools choosing not to participate as a result of computer errors. Proficiency rates were also negatively impacted by computer issues.
