Absolute Priority 2: Partners for Rural Impact will exclusively serve two local educational agencies (school districts) with locale code 43 (rural: remote). This includes Jenkins Independent School District and Letcher County School District. Based on our years of experience with PN, we have designed a high-quality cadre of team members who will deploy age appropriate resources to impact social and academic outcomes.

CPP #1: Letcher PN is designed to take a systemic, evidence-based approach to improving outcomes for underserved students through our **coordinated, cross-agency approach** to address healthy development and student success. That includes **providing pro-active responses for community violence prevention and intervention.**

CPP #2a: Letcher PN is designed to increase the number and proportion of Letcher PN students who enroll in and complete postsecondary education. Our solutions include strategies related to college awareness, preparation, counseling, application, selection, enrollment and retention.

CPP #3: We will carry out evidence-based activities, strategies, and interventions—each greatly informed by research and evidence—leading to increased student achievement, graduation rates, and career readiness.
