

**Full-Service Community Schools Program (FSCS)
Project Abstract FY 2022**

Applicant Name: United Way California Capital Region

Project Title: Full-Service Community Schools – Washington Unified School District

Absolute Priority the Project Addresses: (select all that apply)

- Absolute Priority 1 – Title IA Schoolwide Program Eligibility
- Absolute Priority 3 – Capacity Building and Development Grants

Competitive Preference Priorities the Project Addresses: (select all that apply)

- Competitive Preference Priority 1—Meeting Student Social, Emotional, and Academic Needs
- Competitive Preference Priority 2—Strengthening Cross-Agency Coordination and Community Engagement to Advance Systemic Change

Total number local educational agencies (LEAs) to be served by the project: 1

Total number of schools to be served by the project: 2

Total estimated number of students to be served by the project: 2940

Brief description of proposed project, including project activities: United Way California Capital Region has partnered with Washington Unified School District to implement a FSCS Program at two schools within WUSD (Riverbank Elementary and River City High School). The project will implement high-quality educational and enrichment programming in local schools, alongside the robust service offerings of the partner organizations who have agreed to participate as part of the FSCS project. The project will expand upon WUSD's current efforts to engage with families and community-based organizations to develop and refine an effective coalition representing a diverse cross-section of the community to drive successful student supports within full-service community schools. The project will include a comprehensive needs assessment to identify student and family needs. Based on the results of the needs assessment, United Way, WUSD, and our community-based partners will implement pipeline services during Years 2-5 of the FSCS project period. Through these activities, as well as ongoing collaborative leadership and practices to engage representatives from the schools, district, students, families, and the community, United Way and Washington Unified School District will ensure the two target schools exemplify the four pillars of full-service community schools.

Summary of project objectives and expected outcomes: Performance objectives include a goal to increase the number and percentage of families and students targeted for service during each year of the program, with a preliminary goal to increase student and family participation in services by no less than 20% each year. Other objectives include increasing the number of students who are prepared for kindergarten, increase student academic achievement, and increase the extent to which students are safe, healthy, and supported by engaged parents using student attendance, parent participation in parent/teacher conferences, and student and family feedback.

Proposed location(s) of implementation: West Sacramento, California
