# CE Program Purpose

---

The Grants for Credit Enhancement for Charter School Facilities (Credit Enhancement) program provides grants to eligible entities to demonstrate innovative methods of helping **charter schools** to address the cost of acquiring, constructing, and renovating facilities by enhancing the availability of loans and bond financing.

# CE Eligible Applicants

---

- A public entity, such as a State or local governmental entity
- A private, nonprofit entity
- A consortium of above entities

# Project Design: Funding Restrictions & Other Considerations

---

Charter School  
Objectives

Funding  
Restrictions –  
Reserve Account

Other  
Considerations

# Charter School Objectives & Use of CE Funds

Use grant funds – deposited in a reserve account – to assist one or more charter schools to access private sector capital to accomplish one or more of the objectives

- The acquisition (by purchase, lease, donation, or otherwise) of an interest (including an interest held by a third party for the benefit of a charter school) in improved or unimproved real property that is necessary to commence or continue the operation of a charter school.
- The construction of new facilities, or the renovation, repair, or alteration of existing facilities, necessary to commence or continue the operation of a charter school.
- The predevelopment costs required to assess sites and to commence or continue the operation of a charter school.

# Funding Restrictions: Reserve Account

## Permissible Uses

### Grantees may use reserve account funds for:

- Guaranteeing, insuring, and reinsuring bonds, notes, evidences of debt, loans, and leases of personal or real property;
- Facilitating financing by identifying potential lending sources, encouraging private lending, and other similar activities that directly promote lending to, or for the benefit of, charter schools; and
- Facilitating the issuance of bonds by charter schools, or by other public entities for the benefit of charter schools, by providing technical, administrative, and other appropriate assistance.

## Impermissible Uses

### Grantees may not use reserve account funds to:

- Directly pay for a charter school's construction, renovation, repair, or acquisition; or
- Provide a down payment on facilities in order to secure loans for charter schools. A grantee may, however, use funds to guarantee a loan for the portion of the loan that would otherwise have to be funded with a down payment.

# Other Funding Considerations

This program does not require cost sharing or matching..

A grantee under this competition may not award subgrants to entities to directly carry out project activities described in its application.

The charter schools that a grantee selects to benefit from this program must meet the definition of “charter school” in section 4310 of the ESEA, as amended by the ESSA.

# Other Funding Considerations

A grantee must invest funds in obligations issued or guaranteed by the United States or a State, or in other similarly low-risk securities.

A grantee may use 2.5 percent of the grant funds for the administrative costs.

Any earnings on funds, including fees, received under this program must be deposited in the reserve account and used in accordance with the requirements of this program.

## (a) Quality of project design and significance (up to 35 points)

- 1) The extent to which the grant proposal would provide financing to charter schools at better rates and terms than they can receive absent assistance through the program;
- 2) The extent to which the project goals, objectives, and timeline are clearly specified, measurable, and appropriate for the purpose of the program;
- 3) The extent to which the project implementation plan and activities, including the partnerships established, are likely to achieve measurable objectives that further the purposes of the program;

- 5) The extent to which the project will use appropriate criteria for selecting charter schools for assistance and for determining the type and amount of assistance to be given;
- 6) The extent to which the proposed activities will leverage private or public sector funding and increase the number and variety of charter schools assisted in meeting their facilities needs more than would be accomplished absent the program;
- 7) The extent to which the project will serve charter schools in States with strong charter laws, consistent with the criteria for such laws in section 4303(g)(2) of the ESEA; and
- 8) The extent to which the requested grant amount and the project costs are reasonable in relation to the objectives, design, and potential significance of the project.

## (b) Quality of project services (up to 15 points)

---

In determining the quality of the project services, the Secretary considers –

- 1) The extent to which the services to be provided by the project reflect the identified needs of the charter schools to be served;

## (c) Capacity (up to 35 points)

---

In determining an applicant's business and organizational capacity to carry out the project, the Secretary considers –

---

In determining an applicant's business and organizational capacity to carry out the project, the Secretary considers –

- 7) For State governmental entities, the extent to which steps have been or will be taken to ensure that charter schools within the State receive the funding needed to obtain adequate facilities; and
- 8) For previous grantees under the charter school facilities programs, their performance in implementing these grants.

Note: The 35 available points under this selection criterion will be allocated evenly among the factors applicable to a particular applicant. For example, for an applicant for which none of factors (6)–(8) apply, the 35 available points will be allocated among the first five factors. Similarly, for an applicant that is a State governmental entity that is a previous grantee under the charter school facilities programs, the 35 available points will be allocated evenly among factors (1)–(5), (7), and (8).

## (d) Quality of project personnel (up to 15 points)

---

In determining the quality of project personnel, the Secretary considers –
