Every Saturday students in grades 3 through 8 come to school and work with teachers and counselors who can help them with their studies. Students are broken up into small groups according to their grade level. From 9AM to 11AM the RLC Media Center is buzzing with students hard at work. These students work on many subjects including ELA and Math depending on where they need it most. After several Saturdays, school day teachers have commented on the improvements they have seen with the students that attend the Saturday School Academy. Starting with only a few students, we have grown to an average of twenty students per week.

Our Saturday School Academy also offers a Virtual Chess Program where our chess coach works with beginner students to advanced students. Each week they log on for one and a half hours and learn new skills. After, they are paired up with someone on their skill level and compete in games. Students have expressed how much they enjoy this program each week.
