

Tennessee Department of Education (TN) (S371C200013) \$2,700,000 proposes to target several priority areas, with which to expand services to existing CLSD students, as well as to add six local education agency (LEA) subgrantees to its current Literacy Implementation Network. This entails a heightened emphasis on Pre-K, and students with unique learning needs (e.g., students with disabilities). Supplemental funding will allow resources to be focused on specific areas to become an integral focus of the established network of literacy activities. Supplemental funds will also allow additional support for the broader statewide infrastructure, which includes planning efforts for sustainability. Funds have been allocated to be used in Year 4 and Year 5 of the grant.
