

Guam Department of Education (GU) (S371C220003) \$67,567 proposes to enhance the literacy activities of an existing cohort of subgrantees. During the 2021-22 school year, subawards were made to a first cohort of subgrantees that have been served via Saturday professional development sessions. The Guam Department of Education will use the supplemental funds to further support this cohort of subgrantees during the current (2022-2023) academic year by providing (a) additional Saturday professional development sessions to assist teachers with implementation of evidence-based practices and (b) follow-up, onsite, and one-on-one coaching in their classrooms from trained literacy coaches following each training session.
