

Summary of Key Differences between EANS Fiscal Year 2023 APR Form and EANS Fiscal Year 2022 APR Form

- **Date** has been removed from header of form to align with the format of the ESSER and GEER forms.
- **Instructions** were updated to reflect that all questions should be answered based on the reporting period shown in the Annual Reporting table, unless specified otherwise in the question.
- **Annual Reporting Period** section was updated to reflect that the report should be completed based on activities within the applicable reporting periods for EANS, unless specified otherwise in the question.
- **Annual Report Table** was modified to reflect the current and future reporting periods.
- **Question 1** has been updated to reflect that Grantees will be completing the APR based on the 2022-2023 Fiscal Year.
- **CRRSA EANS Schools template** has updated verbiage to specify enrollment counts should be “from the” 19-20 school year to align with program requirements.
- **Question 19** has been updated to include additional text from the instructions within the table to better align with the CRRSA EANS Schools report template.
- **Question 25** includes format updates to place the “Percentage of student from low-income families enrolled in non-public school” table on one page.
- **Question 26** has been updated to include additional text from the instructions within the table to better align with the ARP EANS Schools template.
- **Question 19 & 26** includes updated School Year (SY) notations to standardize notation and align with the EANS Schools templates.
- **Question 30** has been updated to reflect that the response will be auto-populated from Q26 and not Q22.
- **Question 31** has been updated to reflect that the response will be auto-populated from Q26 and not Q22.
