

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

The Honorable Eric G. Mackey State Superintendent Alabama State Department of Education Gordon Persons Building P.O. Box 302101 Montgomery, AL 36130-2101

July 12, 2019

Dear Superintendent Mackey:

Thank you for your participation in the U.S. Department of Education's (the Department) assessment peer review process under Title I of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA). I appreciate the efforts of the Alabama State Department of Education (ALSDE) to prepare for the English language proficiency (ELP) peer review, which occurred in April 2019. Specifically, ALSDE submitted evidence regarding ACCESS.

The ESEA and its implementing regulations require a State to ensure that its local educational agencies (LEAs) provide an annual ELP assessment of all English learners (ELs) in grades K-12 in schools served by the State (ESEA section 1111(b)(2)(G); 34 CFR § 200.6(h)). Specifically, the ESEA requires a State to develop a uniform statewide ELP assessment to measure the ELP of all ELs in the State, including ELs with disabilities, and to provide an alternate ELP assessment (AELPA) for ELs who are students with the most significant cognitive disabilities who cannot participate in the regular ELP assessment even with accommodations (ESEA section 1111(b)(2)(G); 34 CFR § 200.6(h)(1), (5)). The ESEA and its implementing regulations require that a State's ELP assessments, including the AELPA, be aligned with the State's ELP standards, provide valid and reliable measures of the State's ELP standards, and be of adequate technical quality (ESEA section 1111(b)(2)(G); 34 CFR § 200.2(b)(2), (b)(4), (b)(5), 200.6(h)(2)).

External peer reviewers and Department staff carefully evaluated ALSDE's submission and the Department found, based on the evidence received, that this component of your assessment system met some, but not all of the statutory and regulatory requirements of the ESEA. Based on the recommendations from this peer review and our own analysis of the State's submission, I have determined the following:

• General ELP assessment (ACCESS): Partially meets requirements of the ESEA as amended by the ESSA.

An assessment that partially meets requirements does not meet a number of the requirements of the statute and regulations and ALSDE will need to provide substantial additional information to demonstrate it meets the requirements. The Department realizes that this was the first time your State was required to provide its ELP assessment for peer review and recognizes that it may take some time

400 MARYLAND AVE., SW, WASHINGTON, DC 20202 http://www.ed.gov/

Page 2 – The Honorable Eric Mackey

to address all of the required items. The specific list of items required for ALSDE to submit is enclosed with this letter.

I also note that ALSDE did not submit evidence for an alternate ELP assessment for ELs with significant cognitive disabilities who are unable to take the regular ELP assessment. Within 30 days, ALSDE must provide a plan and timeline for submitting all required documentation for the ACCESS and a plan and timeline to submit a complete peer review submission for the Alternate ACCESS. Resubmission should occur once all necessary evidence is complete (rather than in multiple submissions). The Department is placing a condition on ALSDE's Title I, Part A grant award. The condition shall remain until ALSDE's ELP and alternate ELP assessments have been determined to meet all requirements. If adequate progress is not made, the Department may take additional action.

Additionally, the Office of Special Education and Rehabilitative Services (OSERS) will monitor progress on matters pertaining to requirements in the Individuals with Disabilities Education Act (IDEA) related to the participation of students with disabilities in Title I assessments. In particular, OSERS will monitor progress against critical elements 1.4, 4.2, 5.1, 5.3, 6.1 and 6.3. Insufficient progress to address such matters may lead OSERS to place a condition on ALSDE's fiscal year 2020 IDEA Part B grant award.

The full peer review notes from the review are enclosed. These recommendations to the Department formed the basis of our determination. Please note that the peers' recommendations may differ from the Department's feedback; we encourage you to read the full peer notes for additional suggestions and recommendations for improving your assessment system beyond what is noted in the Department's feedback. Department staff will reach out to your assessment director in the next few days to discuss the peer notes and the Department's determination and to answer any questions you have.

Thank you for your ongoing commitment to improving educational outcomes for all students. I look forward to our continued partnership as we move ahead with this critical work. I appreciate the work you are doing to improve your schools and provide a high-quality education for your students.

If you have any questions, please contact my staff at: <u>ESEA.Assessment@ed.gov</u>.

Sincerely,

/s/ Frank T. Brogan Assistant Secretary for Elementary and Secondary Education

Enclosures

cc: Maggie Hicks, Director of Student Assessment

Critical Elements Where Additional Evidence is Needed to Meet the Requirements for Alabama's Use of the ACCESS as an English Language Proficiency (ELP) Assessment

Critical Element	Additional Evidence Needed
1.1 – State Adoption of ELP Standards for All English Learners (ELs)	 For the State's ELP standards: Evidence that Alabama has adopted the most current WIDA ELP standards.
1.2 – Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards	 For the State's ELP standards: For science, evidence that the ELP standards contain language proficiency expectations that reflect the language needed for ELs to acquire and demonstrate their achievement of the knowledge and skills identified in the State's academic content standards appropriate to each grade-level or grade-band. For reading/language arts (R/LA) and mathematics, evidence of alignment of its current ELP standards to the State's academic content standards, including a plan to address findings of the previous alignment study.
1.5 – Meaningful Consultation in the Development of Challenging State Standards and Assessments	 For the State's ELP standards: Evidence of meaningful consultation once the State has adopted its standards.
2.1 – Test Design and Development	 For ACCESS: Evidence that the assessment is aligned to the depth and breadth of the State's ELP standards, including: Statement of the purposes and intended uses of results. Test blueprints. Processes to ensure that the ELP assessment is tailored to the knowledge and skills included in the State's ELP standards and reflects appropriate inclusion of the range of complexity found in the standards (e.g., detail about the routing rules, detail of the item selection process for paper forms to ensure it adheres to the blueprint). Evidence that the item pool and item selection procedures adequately support the multi-stage adaptive administrations. Evidence that proficiency determinations are made with respect to the grade in which the student is enrolled.
2.2 – Item Development	 For ACCESS: Evidence of reasonable and technically sound procedures to develop and select items (e.g., timeline of development, qualifications of item writers, item-writing training, item review processes and reviewer qualifications, field test processes for each domain, and technical advisory committee review).
2.3 – Test Administration	 For ACCESS: Evidence of established communication to educators of clear, thorough and consistent standardized procedures for the administration of its

Critical Element	Additional Evidence Needed
	 assessments, including administration with accommodations (e.g., guidelines or recommended qualifications of test administrators including volunteers, training of volunteers, and qualifications and training for the human providers of accommodations). Evidence of established procedures to ensure that general and special education teachers, paraprofessionals, teachers of ELs, specialized instruction support personnel, and other appropriate staff receive necessary training to administer assessments and know how to administer assessments, including, as necessary, alternate assessments, and know how to make use of appropriate accommodations during assessments for all students with disabilities (e.g., content of training modules, evidence that training is required for test administrators and evidence of participation in such training). Evidence of established contingency plans to address possible
2.5 – Test Security	 technology challenges during test administration. For ACCESS: Evidence of detection of test irregularities. Evidence of remediation following any test security incidents. Evidence of the investigation of alleged or factual test irregularities (e.g., forensic analysis and plans to address concerns).
2.6 – Systems for Protecting Data Integrity and Privacy	 For ACCESS: Policies and procedures to protect the integrity of test-related data in test administration (e.g., how data are protected by all parties, including during handoffs).
3.1 – Overall Validity, including Validity Based on Content	 For ACCESS: Documentation of adequate alignment between the State's ELP assessment and the ELP standards the assessment is designed to measure in terms of language knowledge and skills and the depth and breadth of the State's ELP standards across all proficiency levels, domains, and modalities identified therein. Documentation of alignment between the State's ELP standards and the language demands implied by, or explicitly stated in, the State's academic content standards.
3.2 – Validity Based on Linguistic Processes	 For ACCESS: Adequate validity evidence that its assessments tap the intended language processes appropriate for each grade level or grade-band as represented in the State's ELP standards.
3.3 – Validity Based on Internal Structure	 For ACCESS: Evidence that the scoring and reporting structures of the assessments are consistent with the subdomain structures of the State's ELP standards (e.g., an explanation of how the included statistical analyses relate to the validity framework for the assessments).
3.4 – Validity Based on Relationships with Other Variables	 For ACCESS: Adequate validity evidence that the State's assessment scores are related as expected with other variables.

Critical Element	Additional Evidence Needed
Critical Element 4.1 – Reliability 4.2 – Fairness and accessibility	 Additional Evidence Needed For ACCESS: Evidence of test reliability, including: Reliability by subgroups. Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results. That reliability statistics are used to inform ongoing maintenance and development. For computer-adaptive tests, evidence that the assessments produce test forms with adequately precise estimates of an EL's ELP. For ACCESS: Evidence that the assessments are accessible to all students and fair
	across student groups in design, development, and analysis (e.g., the implementation of universal design principles, to the extent practicable, during item development and review, and additional differential item functioning (DIF) analyses to include more student subgroups).
4.3 – Full Performance Continuum	 For ACCESS: Evidence that the assessment provides an adequately precise estimate of student performance across the full performance continuum for ELP assessments, including performance for EL students with high and low levels of ELP.
4.4 – Scoring	 For ACCESS: Evidence that if an EL has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) because there are no appropriate accommodations for the affected domain(s)/component(s), the State ensures that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, including a description of how this will occur. Evidence of standardized scoring procedures and protocols that are designed to produce reliable and meaningful results, facilitate valid score interpretations, and report assessment results in terms of the State's ELP standards (e.g., evidence that the scoring of speaking items on the paper form of the test is monitored).
4.5 – Multiple Assessment Forms	 For ACCESS: Evidence that all forms adequately represent the State's ELP standards and yield consistent score interpretations such that the forms are comparable within and across settings, particularly for the listening domain (e.g., rationales for why equating is not done for the paper versions of the reading and listening domains and rationales for the use of the anchor item sets).
4.7 – Technical Analysis and Ongoing Maintenance	 For ACCESS: Evidence of adequate technical quality is made public, including on the State's website.

Critical Element	Additional Evidence Needed		
5.1 – Procedures for	For ACCESS:		
Including Students with Disabilities	• Evidence of policies that require the inclusion of an EL with a disability that precludes assessment of the student in one or more of the required domains (i.e., ensuring that the student will be assessed based on the remaining components in which it is possible to assess the student).		
5.3 –	For ACCESS:		
Accommodations	 Evidence that the provided accommodations: Are appropriate and effective for meeting the individual student's need(s) to participate in the assessments. Do not alter the construct being assessed. Allow meaningful interpretations of results and comparison of scores for students who need and receive accommodations and students who do not need and do not receive accommodations. 		
6.1 – State Adoption	For ACCESS:		
of ELP Achievement Standards for All Students	• Evidence that the State adopted ELP achievement standards that address the different proficiency levels of ELs.		
6.3 – Aligned ELP	For ACCESS:		
Achievement Standards	• Evidence that ELP assessment results are expressed in terms that are clearly aligned with the State's ELP standards and its ELP performance level descriptors.		
6.4 – Reporting	 For ACCESS: Evidence that the State's reporting of assessment results facilitates timely interpretations and uses of those results by parents, educators, State officials, policymakers and other stakeholders, and the public. Evidence that the State provides coherent and timely information about each student's attainment of the State's ELP standards to parents that are, to the extent practicable, written in a language that parents and guardians can understand or, if it is not practicable to provide written translations to a parent or guardian with limited English proficiency, are orally translated for such parent or guardian. Evidence that student reports are, upon request by an individual with a disability, provided in an alternative format accessible to that parent. 		

U. S. DEPARTMENT OF EDUCATION

Peer Review of State Assessment Systems

April State ELP Assessment Peer Review Notes

U. S. Department of Education Office of Elementary and Secondary Education Washington, D.C. 20202

Note: Peer review notes provide the combined recommendations of the individual peers to the U.S. Department of Education (Department), based on the statute and regulations, the Department's peer review guidance, and the peers' professional judgement of the evidence submitted by the State. These assessment peer review notes, however, do not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for assessment peer review. Although the peer notes inform the Secretary's consideration of each State's assessment system, the Department makes the final decision regarding whether the assessment system meets the requirements in the statute and regulations. As a result, these peer notes may not completely align with the final determination made by the Department. Contents

SECTION 1: STATEWIDE SYSTEM OF STANDARDS AND ASSESSMENTS

Critical Element 1.1 – State Adoption of ELP Standards for All English Learners

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<i>For English language proficiency (ELP)</i> <i>standards:</i> The State formally adopted K-12 ELP standards for all ELs in public schools in the State.	FOLDER:1 (1.1-1)ALSDE English Learner Guidebook:Page 34:Second paragraphPage 35:Second paragraphPage 35:Last paragraph	The ELD standards have not been formally adopted by the Alabama State Board of Education, p.1 of the Index.
	FOLDER: 1 (1.1-2) Timeline for Alignment Studies FOLDER: 1 (1.1-3)	
	MOU for Alignment Study with The University of Alabama Huntsville	
Section 1.1 Summary Statement		
X The following additional evidence is no • The state should provide evidence of	•	

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
 For ELP standards: are derived from the four domains of speaking, listening, reading, and writing; address the different proficiency levels of ELs; and align to the State academic content standards (see definition¹). The ELP standards must contain language proficiency expectations that reflect the language needed for ELs to acquire and demonstrate their achievement of the knowledge and skills identified in the State's academic content standards appropriate to each grade-level/grade- band in at least reading/language arts, mathematics, and science. 	 FOLDER: 1 (1.2-1) Understanding the WIDA English Language Proficiency Standards FOLDER: 1 (1.2-2) English Language Proficiency Standards Prekindergarten through Grade 5 FOLDER: 1 (1.2-3) 2012 Amplification of The English Language Development Standards FOLDER: 1 (1.2-4) Alignment Study between the Common Core State Standards in English Language Arts and Mathematics and the WIDA English Language Proficiency Standards, 2007 Edition, Prekindergarten through Grade 12. FOLDER: 1 (1.2-5) WIDA Consortium Response to the Alignment Study Results 	 1(1.2-4) The evidence of 1.2-4 is only relevant if Alabama uses the Common Core State Standards for ELA & Math. Does Alabama use Common Core ELA & Math? No science was addressed in this study. The MOU for the proposed alignment study does not specify which content standards are included. There is no evidence of demonstration of alignment between the Alabama Standards in English LA, Math and Science to the English Language Proficiency Standards. The MOU does not specify which set of standards either the 2007 or the 2012 Amplification ELD standards for the alignment study? To which set of standards is the assessment aligned?

Critical Element 1.2 – Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards

¹ see page 24 of "A State's Guide to the U.S. Department of Education's Assessment Peer Review Process", September 24, 2018 available at: www.ed.gov/admins/lead/account/saa.html

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

standards) administered to:	(1.3-3) Screenshot of State's Website	
• All ELs in grades K-12.		Alabama did not submit the Alternate ACCESS for peer review and will need to be reviewed in the next submission. However, ED staff note that the Alternate ELP assessment is not provided in kindergarten, which means that the assessment system does not include an ELP assessment for all ELs in grades K-12.
Section 1.3 Summary Statement		
X_ The following additional evidence is needed/provide brief rationale:		
The state should provide evidence that an alternate ELP assessment is available in kindergarten.		

Critical Element 1.3 – Required Assessments

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
• The State has policies that require the inclusion of all public elementary and secondary ELs in the State's ELP assessment, including ELs with disabilities.	(1.1-1)ALSDE English Learner Guidebook Page 34 (1.3-2) Alabama Student Assessment Program Integrity Handbook for Test Administration (1.4-1) Alabama State Department of Education Student Assessment Program Policies and Procedures for Students of Special Populations	As described in the State's <i>Integrity Handbook for Test</i> <i>Administration</i> , all public school students identified as EL must participate in the Student Assessment Program. EL students must also participate in the state's English language proficiency assessment, <i>ACCESS for ELLs 2.0</i> or <i>Alternate ACCESS for ELLs</i> . Students who attain a composite score of 4.8 are no longer eligible for English language services and must exit. The student's academic performance will be monitored for four years. Students who attain the 4.8 composite score will no longer take <i>ACCESS for ELLs 2.0</i> . However, ED staff note that the Alternate ELP assessment is not provided in kindergarten, which means that the assessment system does not include an ELP assessment for all ELs with significant cognitive disabilities in kindergarten.
Section 1.4 Summary Statement		
X_ The following additional evidence is The state should provide evidence	needed/provide brief rationale: that an alternate ELP assessment is available in kindergarte	n (see Critical Element 1.3).

Critical Element 1.4 – Policies for Including All Students in Assessments

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 If the State has developed or amended challenging <i>ELP</i> standards and assessments, the State has conducted meaningful and timely consultation with: State leaders, including the Governor, members of the State legislature and State board of education (if the State has a State board of education). Local educational agencies (including those located in rural areas). Representatives of Indian tribes located in the State. Teachers, principals, other school leaders, charter school leaders (if the State has charter schools), specialized instructional support personnel, paraprofessionals, administrators, other staff, and parents. 	Reviewed by Department Staff Only	State Documentation of Evidence The State has not developed or amended challenging ELP standards and assessments. The State adopted the WIDA ELP Standards in 2004 and administered ACCESS for ELLs beginning in 2005. As noted in Critical Element 1.1, the Alabama State Board of Education has not formally adopted the WIDA ELP Standards. The State is in the process of conducting two alignment studies. Meaningful and timely consultation with the State Board of Education, LEAs, teachers, principals, ESL educators, and specialized instructional support educators is ongoing and will continue until the alignment studies are complete and ready to be formally presented to the Alabama State Board of Education for adoption. Evidence of meaningful consultation will need to be reviewed once the State has adopted its standards.
Section 1.5 Summary Statement

~	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
Critical Element	reference)	State Documentation or Evidence
The State adequately monitors the administration of its State assessments to ensure that standardized test administration procedures are implemented with fidelity across districts and schools. Monitoring of test administration should be demonstrated for all assessments in the State system: the general ELP assessments and the AELPA.	(2.4-1) Alabama Student Assessment Program Integrity Handbook for Test Administration (2.4-2) Monitoring Letter (2.4-3) Monitoring Decket for State Assessments (2.4-5) Support Letter	 State Documentation of Evidence The State has a randomized monitoring process to determine which of its 145 LEAs are monitored each year, with a goal of monitoring all systems in the State within a 5 year period. In addition, LEAs are required to monitor at least one administration of each assessment every year. In the past, the ELP assessment was only monitored by the EL Program Manager. The ELP and alternate ELP assessments have now been added to the rotation of assessments that are randomly selected by system and school. LEAs are trained in the fall on the State's monitoring process and know ahead of time what is expected. In addition to compliance assessment monitoring, the State provides support monitoring for systems in need of assistance either due to past negligible occurrences or due to a need the State feels should be addressed. The State provided detailed procedures, including a monitoring form and sample letters, as evidence of its monitoring process.
Section 2.4 Summary Statement		monitoring process.

<u>Critical Element 2.6 – Systems for Protecting Data Integrity and Privacy</u>

Section 2.6 Summary Statement

X____ The following additional evidence is needed/provide brief rationale:

• The state must provide evidence to secure student-level assessment data and protect student privacy and confidentiality, including guidelines for districts and schools.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

SECTION 3: TECHNICAL QUALITY – VALIDITY

Critical Element 3.1 – Overall Validity, Including Validity Based on Content

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate overall validity evidence for its assessments consistent with nationally recognized professional and technical testing standards. The State's validity evidence includes evidence that:	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
 <i>The State's ELP assessments</i> measure the knowledge and skills specified in the State's ELP standards, including: Documentation of adequate alignment between the State's ELP assessment and the ELP standards the assessment is designed to measure in terms of language knowledge and skills, the depth and breadth of the State's ELP standards, across all proficiency levels, domains, and modalities identified therein; Documentation of alignment (as defined) between the State's ELP standards; If the State administers an AELPA aligned with alternate ELP achievement standards, the assessment shows adequate linkage to the State's ELP standards in terms of content match (i.e., no unrelated content) and that the breadth of 		

determined in test design is appropriate for ELs who are students with the most significant cognitive disabilities.		
Section 3.1 Summary Statement		
_x The following additional evidence is ne • See WIDA peer review notes.	eeded/provide brief rationale:	

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate validity evidence that its assessments tap <i>the intended language processes</i> appropriate for each grade level/grade-band as represented in the State's ELP standards.	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 3.2 Summary Statement	1

Critical Element 3.2 – Validity Based on Linguistic Processes

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate validity evidence that the scoring and reporting structures of its assessments are consistent with the sub-domain structures of the State's <i>ELP standards</i> on which the intended interpretations and uses of results are based.	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 3.3 Summary Statement		
 _x_The following additional evidence is r See WIDA peer review notes. 	needed/provide brief rationale:	

Critical Element 3.3 – Validity Based on Internal Structure

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate validity evidence that the State's assessment scores are related as expected with other variables.	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 3.4 Summary Statement		
 _x The following additional evidence is n See WIDA peer review notes. 	needed/provide brief rationale:	

Critical Element 3.4 – Validity Based on Relations to Other Variables

SECTION 4: TECHNICAL QUALITY – OTHER

Critical Element 4.1 – Reliability

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 The State has documented adequate reliability evidence for its assessments for the following measures of reliability for the State's student population overall and each student group consistent with nationally recognized professional and technical testing standards. If the State's assessments are implemented in multiple States, measures of reliability for the assessment overall and each student group consistent with nationally recognized professional and technical testing standards, including: Test reliability of the State's assessments estimated for its student population (<i>for ELP assessments, including any domain or component sub-tests, as applicable</i>); Overall and conditional standard error of measurement of the State's assessments, including any domain or component sub-tests, as applicable; Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results; 	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	State Documentation or Evidence
• For computer-adaptive tests,

levelopment, and analysis.	brief rationale:	

Critical Element 4.2 – Fairness and Accessibility

² see page 28 of "A State's Guide to the U.S. Department of Education's Assessment Peer Review Process", September 24, 2018 available at: www.ed.gov/admins/lead/account/saa.html

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has ensured that each assessment provides an adequately precise estimate of student performance across the full performance continuum for <i>ELP</i> <i>assessments</i> , including performance for EL students with high and low levels of English language proficiency and with different proficiency profiles across the domains of speaking, listening, reading, and writing.	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 4.3 Summary Statement _x The following additional evidence is n • See WIDA peer review notes.	needed/provide brief rationale:	

Critical Element 4.3 – Full Performance Continuum

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has established and documented standardized scoring procedures and protocols for its assessments (and <i>for</i> <i>ELP assessments, any applicable domain</i> <i>or component sub-tests</i>) that are designed to produce reliable and meaningful results, facilitate valid score interpretations, and report assessment results in terms of the State's <i>ELP</i> <i>standards</i> .	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
<i>For ELP assessments,</i> if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s), the State must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur. ³		
Section 4.4 Summary Statement	•

As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
If the State administers multiple forms of <i>ELP assessments</i> within or across grade- spans, ELP levels, or school years, the State ensures that all forms adequately represent the State's <i>ELP standards</i> and yield consistent score interpretations such that the forms are comparable within and across settings.	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 4.4 Summary Statement _x The following additional evidence is r • See WIDA peer review notes.	needed/provide brief rationale:	

Critical Element 4.5 – Multiple Assessment Forms

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 If the State administers any of its assessments in multiple versions within a subject area (e.g., online versus paperbased delivery), grade level, or school year, the State: Followed a design and development process to support comparable interpretations of results for students tested across the versions of the assessments; Documented adequate evidence of comparability of the meaning and interpretations of the assessment results. 	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	
Section 4.6 Summary Statement		
 x The following additional evidence is r See WIDA peer review notes. 	eeded/provide brief rationale:	

Critical Element 4.6 – Multiple Versions of an Assessment

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
 The State: Has a system for monitoring, maintaining, and improving, as needed, the quality of its assessment system, including clear and technically sound criteria for the analyses of all of the assessments in its assessment system (i.e., general assessments), and Evidence of adequate technical quality is made public, including on the State's website. 	Evidence for this Critical Element submitted by the WIDA Consortium on behalf of the State.	It is advisable for the state to take an active role in the monitoring, maintaining, and improving the quality of the assessment system. The state has not provided evidence of how adequate technical quality is made public, including on the State's website.
Section 4.7 Summary Statement X The following additional evidence is	needed/provide brief rationale:	
•	ow adequate technical quality is made public, including on	the state website.

<u>Critical Element 4.7 – Technical Analysis and Ongoing Maintenance</u>

SECTION 5: INCLUSION OF ALL STUDENTS

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 The State has in place procedures to ensure the inclusion of all public elementary and secondary school students⁴ with disabilities in the State's assessment system. Decisions about how to assess students with disabilities must be made by a student's IEP Team under IDEA, the placement team under Section 504, or the individual or team designated by a district to make that decision under Title II of the ADA, as applicable, based on each student's individual abilities and needs. For ELP assessments, policies that require the inclusion of an EL with a disability that precludes assessment of the student in one or more of the required domains (speaking, listening, reading, and writing) such that there are no appropriate accommodations for the affected component (the State must assess the student's English language proficiency based on the remaining components in which it is possible to assess the student). 	FOLDER: 5 (4.4-7) Less Than Four Domains: Creating an Overall Composite Score for English Learners with Individualized Education Plans ADDITIONAL STATE EVIDENCE FOLDER: 1 (1.1-1) ALSDE English Learner Guidebook Page 27 FOLDER: 5 (5.1-1) Less Than Four Domains Meeting Notes (1) FOLDER: 5 (5.1-2) Less Than Four Domains Meeting Sign in Sheet FOLDER: 5 (5.1-3) Less Than Four Domains Meeting (2)	The State should provide evidence of a process for ELs to participate in a subset of the ELP domains on the ELP assessment, as well as implementation of the process. The state should provide information to support decision making for ELs with disabilities and the appropriate accommodations for the assessment. This would include training on selecting accommodations, including specific considerations in the four domains. Provide evidence of training for the selection and administration of appropriat accommodations for ELs with disabilities.

Critical Element 5.1 – Procedures for Including Students with Disabilities

⁴ For ELP peer review, this refers to ELs with disabilities.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
X_ The following additional evidence is needed/provide brief rationale:		
• The state must provide evidence of a process for ELs to participate in a subset of the domains on the ELP assessment, as well as implementation of the process.		
• The state must provide evidence of training to support decision making for ELs with disabilities, selection and administration of appropriate accommodations for the assessment, including, but not limited to specific considerations of the four domains.		

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
• Note: This critical element does not apply to ELP assessments, as the requirements only apply to the inclusion of ELs in <u>academic</u> <u>assessments</u> .	N/A	N/A
Section 5.2 Summary Statement		
No additional evidence is required or		
 The following additional evidence is ne [list additional evidence needed w/br 	•	

Critical Element 5.2 – DOES NOT APPLY to ELP Assessment Peer Review

	Critical Element 5.3 – Accommodations			
Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding		
	reference)	State Documentation or Evidence		
 The State makes available appropriate accommodations and ensures that its assessments are accessible to students with disabilities and ELs, including ELs with disabilities. Specifically, the State: Ensures that appropriate accommodations are available for ELs; Has determined that the accommodations it provides (1) are appropriate and effective for meeting the individual student's need(s) to participate in the assessments, (2) do not alter the construct being assessed, and (3) allow meaningful interpretations of results and comparison of scores for students who need and receive accommodations; Has a process to individually review and allow exceptional requests for a small number of students who require accommodations beyond those routinely allowed. Ensures that accommodations for all required assessments do not deny students with disabilities or ELs the opportunity to participate in the assessment. 	reference) FOLDER: 2 (2.2-16) Accessibility and Accommodations Supplement FOLDER: 2 (2.2-17) The WIDA Accessibility and Accommodations Framework FOLDER: 2 (2.3-1) ACCESS for ELLs® 2.0 2016-2017 Test Administrator Manual FOLDER: 2 (2.4-4) Monitoring Packet for State Assessments FOLDER: 5 (5.3-1) Screenshot https portal.wida.us (Accessibility Overview) FOLDER: 5 (5.3-2) Screenshot https wida.wisc.edu (Preparing Students for ACCESS for ELLs) FOLDER: 5 (5.3-3) Findings from 2016 Focus Groups on ACCESS for ELLs 2.0 Accommodations and Universal Tools FOLDER: 5 (5.3-4) Investigating Grades 1-12 English Learners' Use of Universal Tools in	State Documentation or Evidence The state has not determined that the accommodations it provides 1) are accommodations appropriate and effective for meeting the individual student's need(s) to participate in the assessments, (2) do not alter the construct being assessed, and (3) allow meaningful interpretations of results. While the state provides a form for exceptional requests, the evidence does not include policy for granting exceptional requests, the procedures for how they are reviewed, how many are granted, etc. Where is the documentation of the use of the form? Data on and tracking of exceptional requests can also provide evidence related to whether or not current accommodations are sufficient. The state should have evidence for guidance on domain exemptions, in order to prevent denial of participation in the ELP assessment. The state must provide evidence for bow they review and approve requests for ELs to participate in only a subset of the domains on the ELP assessment.

_x The following additional evidence is n • See WIDA peer review notes.	eeded/provide brief rationale:	

Critical Element 6.3 – Aligned ELP Achievement Standards

Critical Element 6.4 – Reporting			
Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding	
	reference)	State Documentation or Evidence	
The State reports its assessment results for all students assessed, and the reporting facilitates timely, appropriate, credible, and defensible interpretations and uses of those results by parents, educators, State officials, policymakers and other stakeholders, and the public. The State reports to the public its assessment results on <i>English language</i>	FOLDER: 6 (6.4-1) * 2018-2019 Test Administration and Reporting Timeline *This document is currently being finalized. It is expected to be available by March 2019. FOLDER: 6 (6.4-2) ACCESS FOR ELLs® 2.0 SPRING 2018 Interpretive Guide for Score	The state evidence did not include a policy about the timely reporting of assessment results, e.g., 30 days at the close of the test window. While the state evidence did include one email indicating Access 2.0 test scores will be delivered in districts on May 25th 2018, the state evidence shows that the state has not yet established a timeline for 2019. It is unclear how the e-mail is communicated to appropriate educators and administrators.	
<i>proficiency for all ELs including the</i> <i>number and percentage of ELs attaining</i> <i>ELP</i> . For the <i>ELP assessment</i> , the State provides coherent and timely information about each student's attainment of the	Reports Kindergarten–Grade 12 ADDITIONAL STATE EVIDENCE FOLDER: 6 (6.4-4)	The State has reported to the public its assessment results on English language proficiency for all ELs including the number and percentage of ELs attaining ELP. Peers found the score reports and interpretive guides are not written in a language that parents and guardians can	
 about each student's attainment of the State's ELP standards to parents that: Reports the <i>ELs' English proficiency</i> in terms of the State's grade level/grade-band ELP standards (including performance-level descriptors); Are provided in an understandable and uniform format; Are, to the extent practicable, written in a language that parents and guardians can understand or, if it is not practicable to provide written translations to a parent or guardian with limited English proficiency, are orally translated for such parent or guardian; 	ACCESS for ELLs Score Reports Communication FOLDER: 6 (6.4-5) ACCESS for ELLs 2.0 Score Reports-One Pager FOLDER: 6 (6.4-6) Alabama State Department of Education Website Screenshot FOLDER: 6 (6.4-7) Native Language Reports Screenshot	 not written in a language that parents and guardians can readily understand. No evidence is provided to demonstrate how reports are provided or how a parent would make a request for an alternate format/language. No evidence was provided that this is being done or if any requests were made. 6 (6.4-1) Did not find this report. 6 (6.4-2) Did not find this report. 	

<u>Critical Element 6.4 – Repo</u>rting

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
• Upon request by a parent who is an individual with a disability as defined by the ADA, as amended, are provided in an alternative format accessible to that parent.		
Section 6.4 Summary Statement		
 _x The following additional evidence is needed/provide brief rationale: The state must provide evidence regarding the state's timely reporting of the assessment results. The state must provide evidence for how a parent obtains a report in an alternate format/languages. 		

SECTION 7: DOES NOT APPLY TO ELP ASSESSMENT PEER REVIEW

U. S. DEPARTMENT OF EDUCATION

Peer Review of State Assessment Systems

April State ELP Assessment Peer Review Notes

U. S. Department of Education Office of Elementary and Secondary Education Washington, D.C. 20202

Note: Peer review notes provide the combined recommendations of the individual peers to the U.S. Department of Education (Department), based on the statute and regulations, the Department's peer review guidance, and the peers' professional judgement of the evidence submitted by the State. These assessment peer review notes, however, do not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for assessment peer review. Although the peer notes inform the Secretary's consideration of each State's assessment system, the Department makes the final decision regarding whether the assessment system meets the requirements in the statute and regulations. As a result, these peer notes may not completely align with the final determination made by the Department. Contents

SECTION 1: STATEWIDE SYSTEM OF STANDARDS AND ASSESSMENTS

Critical Element 1.1 – State Adoption of ELP Standards for All English Learners

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
For English language proficiency (ELP) standards:	N/A	See State peer review notes.
The State formally adopted K-12 ELP standards for all ELs in public schools in the State.		
Section 1.1 Summary Statement		·
 _X The following additional evidence is needed/provide brief rationale: ACCESS & Alternate ACCESS • Evidence to be provided by states. 		

reference)	
	State Documentation or Evidence
ACCESS	ACCESS
ACCESS	ACCESS
 1.2-1 Understanding the WIDA English Language Proficiency Standards 1.2-2 English Language Proficiency Standards PreKindergarten through Grade 5 1.2-3 2012 Amplification of The English Language Development Standards 1.2-4 Alignment Study between the Common Core State Standards in English Language Arts and Mathematics and the WIDA English Language Proficiency Standards, 2007 Edition, PreKindergarten through Grade 12 1.2-5 K–12 English Language Development Standards Validation 2016 	 The Peers did not locate evidence for the following aspects of the critical elements : "align to the State academic content standards" " reflect the language needed for ELs to acquire and demonstrate their achievement of the knowledge and skills identified in the State's academic content standards" The history of alignment work was not clear with regards to how it impacted future development. For example, there is an alignment study for the ELP standards and CCSS, but the standards were written prior to the CCSS. Were any adjustments/modifications made to the standards with regards to the CCSS? From Section 1 of WIDA submission notes (p.2 column 3), "The 2012 Amplification strengthened areas that 2016 validation study identified as not having strong alignment to content standards" How can a document dated 2012 address issues identified in 2016? It is not clear what actions were taken to remediate or address the findings of the various alignment studies.
	 Proficiency Standards 1.2-2 English Language Proficiency Standards PreKindergarten through Grade 5 1.2-3 2012 Amplification of The English Language Development Standards 1.2-4 Alignment Study between the Common Core State Standards in English Language Arts and Mathematics and the WIDA English Language Proficiency Standards, 2007 Edition, PreKindergarten through Grade 12 1.2-5 K–12 English Language Development Standards

Critical Element 1.2 – Coherent and Progressive ELP Standards that Correspond to the State's Academic Content Standards

⁵ see page 24 of "A State's Guide to the U.S. Department of Education's Assessment Peer Review Process", September 24, 2018 available at: www.ed.gov/admins/lead/account/saa.html

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	 State Documentation or Evidence ELP Standards MPIs and the CCSS in English Language Arts (RWSL) and Mathematics. Strong Linking was observed in most grade clusters. Moderate Linking was observed in Reading grades K, 3-5, Writing grades 2, 3-5, 7, 9-12, and Mathematics grades K, 6, 7, and 9-12. However, the study noted that limited linking was observed in ELA Writing grade K and Mathematics grade 8. Reviewer comments state that limited Linking on some reporting categories indicated that the language functions and content stems in some MPIs did not adequately address or support those in the Common Core State Standards. Given the changes to the program since 2010, including the Amplification in 2012, an updated alignment study is warranted. There was no evidence provided with regards to alignment for science. Submission notes indicate that WIDA has not conducted an alignment study between WIDA ELP
	Alternate ACCESS	standards and science or social studies standards. Alternate ACCESS
	The Alternate ACCESS uses the same ELP Standards as ACCESS. No additional evidence provided. However, WIDA is using the Alternate Model Performance Indicators (AMPIs). Are these extensions of the ELP Standards or separate standards?	 More information about the AMPIs needs to be provided. Are they intended to be extensions of the ELP standards or separate standards for Alternate ACCESS? Evidence of alignment is needed. 2.2-8, p. 3. "The test is based on Alternate Model
		Performance Indicators (AMPIs) and Alternate English Language Proficiency (ELP) levels, which allow ELLs with significant cognitive disabilities to access the test tasks and demonstrate their proficiency in English.

members of the State legislature and		
State board of education (if the State		
has a State board of education).		
• Local educational agencies (including		
those located in rural areas).		
Representatives of Indian tribes		
located in the State.		
• Teachers, principals, other school		
leaders, charter school leaders (if the		
State has charter schools), specialized		
instructional support personnel,		
paraprofessionals, administrators,		
other staff, and parents.		
Section 1.5 Summary Statement		
No additional evidence is required or		
The following additional evidence is ne	•	
• [list additional evidence needed w/bri	ef rationale]	

<u>Critical Element 1.5 – Meaningful Consultation in the Development of Challenging State Standards and Assessments</u>

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

SECTION 2: ASSESSMENT SYSTEM OPERATIONS
Critical Element 2.1 – Test Design and Development

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
Critical Exement	reference)	State Documentation or Evidence
 The State's test design and test development process is well-suited for the content, is technically sound, aligns the assessments to <i>the depth and breadth of the State's ELP standards</i>, and includes: Statement(s) of the purposes of the assessments and the intended interpretations and uses of results; Test blueprints that describe the structure of each assessments that are technically sound, measure the depth and breadth of <i>the State's ELP standards</i>, and support the intended interpretations and uses of the results. Processes to ensure that the ELP assessment is tailored to the knowledge and skills included in <i>the State's ELP standards</i> and reflects appropriate inclusion of the range of complexity found in the standards. If the State administers computeradaptive assessments, the item pool and item selection procedures adequately support the test design and intended uses and interpretations of results. 	Statement of purpose • 2.1-1, p.3 • 2.1-2, p.5 Test blueprints • 2.1-2, p.19-23 • Description of multistage adaptive administration provided. Knowledge, skills, range of complexity • 1.2-3 • 2.1-2, pp. 9-11. Item pool and selection • No evidence provided. Grade-level of student • Based on grade level clusters	 ACCESS <u>Statement of purpose</u> 2.1-1 and Table 2 (p.11) in 2.1-3 explicitly address general intended purposes and interpretations. Because decision rules vary by state, states will need to address how the scores are used and interpreted for their students. <u>Test blueprints</u> The test blueprints are not provided. It appears that the description of how test items are assigned to student, based on the PL of their responses in the domains of RWLS and paired with academic areas, serve as the test blueprint for each student. The placement of the student in the proficiency level is explained, but it is not clear if the items assigned to a student adequately measure the depth and breadth of the ELP Standards. Evidence that the ACCESS assessments adhere to the blueprint for both online and paper. <u>Knowledge, skills, range of complexity</u> A general description is provided of how each domain for RWLS is assessed. However, it is not clear if each student is assessed on an adequate number and range of items to ascertain an appropriate inclusion of items across the range of complexity. Additional information regarding routing rules and

student is enrolled and uses that determination for all reporting. If the State administers a content assessment that includes portfolios, such assessment may be partially administered		• It is not clear, if subset of the items (for the multistage adaptive administration) represents an appropriate inclusion of the range of complexity found in the ELP standards.
through a portfolio but may not be <i>entirely</i> administered through a portfolio.		 Item pool and selection Evidence is needed regarding the adequacy of the item pool and item selection procedures to support test design and use of the results.
		 <u>Grade-level (grade bands)</u> There is not enough information provided with regards to items in each pool and the relationship to the grade bands. Can items be tagged to multiple item pools? Are there any controls in place to prevent a student from being administered the same item(s) in subsequent years? What processes are in place to ensure that all the items in the pool are age appropriate?
	Alternate ACCESS	Alternate ACCESS
	Statement of purpose • 2.1-3, p. 3 and 2.1-4, p. 1.	 <u>Test blueprints</u> No evidence provided.
	 <u>Test blueprints</u> Blueprints are referenced 2.1-4, p. 4. "Because the test blueprints across grade-level clusters by domain are the same and the Alternate PLs and AMPIs for the test tasks across grade-level clusters pose nearly identical linguistic challenges and differ only in the topics presented, it is desirable to have common cut scores across grade-level clusters by domain." However, blueprints were not provided. 	No evidence of Processes to ensure that the Alternate ELP assessment is tailored to the knowledge and skills included in <i>the State's ELP standards</i> and reflects appropriate inclusion of the range of complexity found in the standards.

	Range of complexity • No evidence provided.
Section 2.1 Summary Statement	
1	-
 Evidence of the adequacy of the item pool and item selection procedures to support the multistage adaptive administrations. Evidence that all the items in the pool are age and grade appropriate 	

Critical Element	Evidence (Record document and page # for future	
	reference)	State Documentation or Evidence
 Critical Element The State uses reasonable and technically sound procedures to develop and select items to: Assess student English language proficiency based on the <i>State's ELP standards</i> in terms of content and language processes. 	 Evidence (Record document and page # for future reference) ACCESS 2.2-3: conveys the ACCESS Test Development Cycle, which includes steps of item specifications, item development, item reviews, field test 2.2-4: Sample item specifications for Speaking, L1, 3, 5 2.2-5: Sample item specification for SS, Listening, grades 6-8 2.2-6: Sample item specification for MA, Reading, grades 9-12 2.2-7: Sample item specification for Language, Writing, grades 3-5 2.2-9: Center for Applied Linguistics Item development content experts 2.2-10: Teachers who are standards experts 2.2-11: Item Writing Handbook for Reading and Listening (confidential) 2.2-12, 2.2-13: Training Module for item and bias and sensitivity reviews. Not evident the number of reviewers, how they were selected, if they were representative of WIDA states, 	 Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence ACCESS Detail about the test development process was not included E.g. Timeline (across versions, series, domains) Item writers (Were they the 9 CAL item writing staff?) identification, qualification, representation of special education expertise including English learner with disabilities expertise Item writing training Item review process (how often this was done or what the outcomes were) Item reviewer qualifications. While 2.2.10 was provided. Detail was lacking with regards to other review groups and the inclusion of Special Education expertise (i.e., ELs with disabilities expertise) Field test process for each domain including target sample size rationales and the outcomes based on the data TAC involvement and/or review
	bias and sensitivity reviews. Not evident the number of reviewers, how they were selected,	
	education, academic content	Technical Manual and/or Item Development Manual.
	• 2.2-14: procedures for test developers. Information is not provided about how the item writers are trained, if they are content experts, other qualifications.	
	• 2.2-15 Cog Labs for Enhanced Items. This is a sample of one cog lab finding. Information is not provided about the number of cog labs conducted, for what purpose, findings, and implications.	

Critical Element 2.2 – Item Development

	• 2.1-2, pp. 24-25. It is not apparent if the considerably smaller sample size for field				
	Alternate ACCESS	Alternate ACCESS			
	 Does 2.2-3 apply to Alternate ACCESS? If not, no evidence was provided. 	 Evidence was not provided. It is not evident that experts with knowledge of English language learners with significant cognitive disabilities are included in the development of Alternate ACCESS. 			
Section 2.2 Summary Statement

• Evidence of reasonable and technicall	sound procedures to develop and select items				

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 The State implements policies and procedures for standardized test administration; specifically, the State: Has established and communicates to educators clear, thorough and consistent standardized procedures for the administration of its assessments, including administration with accommodations; Has established procedures to ensure that general and special education teachers, paraprofessionals, teachers of ELs, specialized instructional support personnel, and other appropriate staff receive necessary training to administer assessments and know how to administer assessments, including, as necessary, alternate assessments, and know how to make use of appropriate accommodations during assessments for all students with disabilities; If the State administers technology-based assessments, the State has defined technology and other related requirements, included technology-based test administration in its standardized procedures for test administration, and established contingency plans to address possible technology challenges during test administration. 	ACCESS Communicates clear standardized procedures for administration • 2.3-1 Test Administration Manual • 2.3-3 Script for Administrator • 2.3-4 weekly emails with updates for SEAs and LEAs • The TAM does not define who can be a test administrator. Established procedures for training administrators including on accommodations • 2.3-2 Training materials • 2.3-5 Technical Readiness Checklist • 2.3-6 Troubleshooting Established contingency plans • 2.3-7 p.12-13 Critical incidents communication plan, not really a contingency plan	 ACCESS <u>Communicates clear standardized procedures for</u> <u>administration</u> This WIDA policy handbook does include references about test administrators, "designated testing staff or volunteers who will have access to secure test materials complete TA training for the applicable tests." p. 4. The same criteria appear to apply to those scoring and transcribing student responses. The Peers question the appropriateness of volunteers serving as test administrators. While the States may be responsible for test administrations, WIDA should include guidelines or recommended qualifications of test administrators to ensure test security and protect the validity of scores. More information about the qualifications and training for the human providers of accommodations (e.g. scribe, reader, sign language interpreter). <u>Training</u> Additional information regarding the test administrator training is needed (e.g. for each module, the table of contents and outline) Information about how volunteers access training materials. Do they access it via the secure online system? Information regarding the test administrator to score the student responses for the paper test. <u>Established contingency plan</u> Although troubleshooting was addressed, evidence was not provided of a contingency plan to include directions to test administrators in the event of

Critical Element 2.3 – Test Administration

 Alternate ACCESS 2.3-1 Test Administrator Manual, Part 1 is for all test administrators; specific test administration procedures are in Part 2 Alternate ACCESS – p. 140-165 Training 2.3-1, pp. 12-13. Explain that training must be completed, preferably 2 weeks prior to test administration and that administrator must pass a quiz with at least 80% correct. It is not likely that accommodations would be addressed in the training since there are no accommodations, rather all "individualized instructional supports" are permitted. 	 disruptions or widespread administration challenges. A communication plan was included; however, there was not information about how test administrators should manage situations like a lockdown or widespread inaccessibility of the assessments. Alternate ACCESS <u>Communicates clear standardized procedures for administration</u> There is no statement as to who may be a test administrator. There are no participation guidelines provided. p. 143. "During the administration of Alternate ACCESS for ELLs, individualized instructional supports that are used by teachers in everyday classroom instruction may be used to meet individual student needs, only if they do change what is being measured on the assessment." Is this an accurate statement? If the wording should be "if they <u>do not change</u> what is being measured how to determine this? It is noted that no examples of permissible "individualized instructional supports that are used by teachers in everyday classroom instruction ally they do not change what is being measured," do test administrators understand how to determine this? It is noted that no examples of permissible "individualized instructional supports that are used by teachers in everyday classroom instruction" are provided. If individualized instructional supports that are used by teachers in everyday classroom instruction" are provided. If individualized instructional supports that are used by teachers in everyday classroom instruction" are provided. If individualized instructional supports that are used by teachers in everyday classroom instruction and provided. If individualized instructional supports are provided, it is unlikely the administrator will be aware what supports are not permissible. There is no description related to allowable student response modes, e.g., pointing, eye-gaze, when the two theorem the supports are not permissible.
	 student response modes, e.g., pointing, eye-gaze, etc. This should be included in this section. Why does the student need a sharpened pencil if another mode of response will be used?

	 P. 149. "In order to allow the student to demonstrate his or her proficiency, any evidence of engagement that is typical for that student in an instructional setting should be scored as a correct response." How has "evidence of engagement" been validated as a correct response and demonstration of English language proficiency? There does not appear to be adequate examples of what "approaches" means versus an incorrect response P. 154 "If a student asks for an explanation of some word or phrase in a task statement, check to make sure that the student understood your pronunciation of the word or phrase." It is a concern that direction for how to do this is not provided. Does this mean repeat the word/phrase? Does it mean to ask the student if he/she understood the pronunciation? How is the test administered to a student who is deaf or hard of hearing? Blind or visually impaired? Does not have oral speech or has a combination of these disabilities in addition to an intellectual disability? Are tracing and repeating a sound reflective of ELP standards?
	Based on the information cited above, the test administration policies and procedures need to more appropriately reflect the characteristics of the students participating in the assessment and the diverse ways they respond to assessment items (e.g. eye gaze, use of assistive technology). Involvement of experts who have experience with assessing English learners with significant cognitive disabilities is needed to develop policies and an updated TAM for Alternate ACCESS. <u>Training</u>

	 Content of the training is not provided. For example, is scoring practice included (i.e., how to score attending and approaching)? Training on "individualized instructional supports that are used by teachers in everyday classroom instruction" that are permissible for use during the assessment is not included.
	WIDA providing resources for training. States will need to provide evidence that administrators completed training.

Section 2.3 Summary Statement

___X_ The following additional evidence is needed/provide brief rationale:

ACCESS

• Evidence of established communication to educators of clear, thorough and consistent standardized procedures for the administration of its assessments, including administration with accommodations (States will contribute to this evidence)

E.g. guidelines or recommended qualifications of test administrators including volunteers, training of volunteers, and qualifications and training for the human providers of accommodations

• Evidence of established procedures to ensure that general and special education teachers, paraprofessionals, teachers of ELs, specialized instruction support personnel, and other appropriate staff receive necessary training to administer assessments and know how to administer assessments, including, as necessary, alternate assessments, and know how to make use of appropriate accommodations during assessments for all students with disabilities (provided by States) E.g. content of training modules, the way in which volunteers access training materials, and the training of administrators to score the paper test

• Evidence of established contingency plans to address possible technology challenges during test administration

- Alternate ACCESS
- Evidence of established communication to educators of clear, thorough and consistent standardized procedures for the administration of its assessments, including administration with accommodations (States will contribute to this evidence)

E.g. response modes, detail about defining correct responses, permissible supports.

- Evidence that the policies and procedures were developed with involvement of experts who have experience with assessing English learners with significant cognitive disabilities
- Evidence of established procedures to ensure that general and special education teachers, paraprofessionals, teachers of ELs, specialized instruction support personnel, and other appropriate staff receive necessary training to administer assessments and know how to administer assessments, including, as necessary, alternate assessments, and know how to make use of appropriate accommodations during assessments for all students with disabilities (provided by States)

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State adequately monitors the administration of its State assessments to ensure that standardized test administration procedures are implemented with fidelity across districts and schools. Monitoring of test administration should be demonstrated for all assessments in the State system: the general ELP assessments and the AELPA.	N/A	See State peer review notes.
Section 2.4 Summary Statement		
 No additional evidence is required or The following additional evidence is ne • [list additional evidence needed w/brited] 	•	

Critical Element 2.4 – Monitoring Test Administration

	reference)	State Documentation or Evidence
 The State has implemented and documented an appropriate set of policies and procedures to prevent test irregularities and ensure the integrity of test results through: Prevention of any assessment irregularities, including maintaining the security of test materials (both during test development and at time of test administration), proper test preparation guidelines and administration procedures, incident-reporting procedures, consequences for confirmed violations of test security, and requirements for annual training at the district and school levels for all individuals involved in test administration; Detection of test irregularities; Remediation following any test security incidents involving any of the State's assessments; Investigation of alleged or factual test irregularities. Application of test security procedures to the general ELP assessments and the AELPA. 	 ACCESS 2.5-1 District and School Coordinator manual, p. 8- 15, outlines security responsibilities No information about security during development p, 9. If test security has been compromised in any way, please contact your state education agency to determine remediation steps. 2.3-1, pp. 11, 16-30. Test Administrator Manual. Limited information related to test security is provided; on p. 16 the statement, "Be aware that any breaches of test security or problems with test administration may result in the invalidation of student scores." Further consequences are not cited. p. 10, "If test security has been compromised in any way, please contact your Test Coordinator to determine remediation steps." 2.3-3, pp. 4, 5, 10 Test Administrator's Script – Limited statements related to test security in script; reminding test administrators they must complete training and be certified to administer test and to make sure students only have test materials on desk. 2.3-7, p. 5 Test Policy Handbook for SEAs, indicates test coordinators can track educators' training completion prior to administering the test. 	 ACCESS There was no delineation of responsibilities of test security between WIDA and the states provided. There was no evidence of security procedures during development. Recommended guidelines or minimum standards for test security for states to implement is needed. Information contained in cited evidence is too general given the impact of test security on the validity of the program. The following topics related to test security were not located in the evidence provided: requirements for annual training at district and school levels for all individuals involved in test administration, detection of test irregularities, remediation, investigation of alleged or factual test irregularities, monitoring test administrations, transcriptions of student dictation, scoring conducted by individual staff or volunteers, who can be a test administrator, the volunteers who can have access to secure test materials. Forensics analysis and plans to address findings should be performed by WIDA to include data across states. 4.7-10, p. 2 Committee notes indicate that leadership acknowledges that forensics analysis has not been conducted for this critical element.
	Alternate ACCESS	Alternate ACCESS
	• 2.3-1, same as ACCESS, no additional information on test security provided.	• No evidence provided beyond that in the ACCESS materials.

Critical Element 2.5 – Test Security

Section 2.5 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS

- The delineation of responsibilities of test security between WIDA and the states, to include recommended guidelines or minimum standards for test security for states to implement
- Evidence of security procedures during test development
- Evidence of activities that prevent assessment irregularities, including maintaining the security of test materials (both during test development and at time of test administration), proper test preparation guidelines and administration procedures, incident-reporting procedures, consequences for confirmed violations of test security, and requirements for annual training at the district and school levels for all individuals involved in test administration;
- Evidence of detection of test irregularities;
- Evidence of remediation following any test security incidents involving any of the State's assessments; (provided by States)
- Evidence of the investigation of alleged or factual test irregularities to include forensic analysis and plans to address findings (provided by States)

Alternate ACCESS

• Evidence related to all aspects of this critical element are needed

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
 The State has policies and procedures in place to protect the integrity and confidentiality of its test materials, test-related data, and personally identifiable nformation, specifically: To protect the integrity of its test-related data in test administration, scoring, storage and use of results; To secure student-level assessment data and protect student privacy and confidentiality, including guidelines for districts and schools; To protect personally identifiable information about any individual student in reporting, including defining the minimum number of students necessary to allow reporting of scores for all students and student groups. 	 ACCESS Security of data in research 2.6-1 WIDA Research IRB Application pp. 20-24. WIDA's process, "includes provisions to ensure that only those conducting research or evaluating tests have access to test-related data and that only a few key individuals have access to identifying student data." 2.6-2 Data use agreement, signed by states 2.6-3 Training completed by UW-Madison staff related to research. 2.6-4 Technical Assistance Policy. "All data requests are encrypted and delivered via WIDA's STFP site." Alternate ACCESS No evidence specific to Alternate ACCESS was submitted. 2.6-1 applies to Alternate ACCESS 2.6-2 does not reference Alternate ACCESS 2.6-3 applies to Alternate ACCESS 	 ACCESS & Alternate ACCESS Evidence has been provided related to research using WIDA data. The parties involved in handling data for WIDA are unclear. More information related to who is involved and how data are protected by all parties and during handoffs is required. Additional evidence is required from states to address the remaining aspects of the critical element.

<u>Critical Element 2.6 – Systems for Protecting Data Integrity and Privacy</u>

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS & Alternate ACCESS

- Information related to who is involved in handling WIDA data and how data are protected by all parties, including during handoffs, is required.
- Additional evidence is required from states to address the remaining aspects of the critical element.

SECTION 3: TECHNICAL QUALITY – VALIDITY

Critical Element 3.1 – Overall Validity, Including Validity Based on Content

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 Critical Element The State has documented adequate overall validity evidence for its assessments consistent with nationally recognized professional and technical testing standards. The State's validity evidence includes evidence that: The State's ELP assessments measure the knowledge and skills specified in the State's ELP standards, including: Documentation of adequate alignment between the State's ELP assessment is designed to measure in terms of language knowledge and skills, the depth and breadth of the State's ELP standards, across all proficiency levels, domains, and modalities identified therein; Documentation of alignment (as defined) between the State's ELP standards implied by, or explicitly stated in, the State's academic content standards; 		State Documentation or Evidence ACCESS Validity evidence • The Peers appreciate the work of the validity framework. Content alignment • Peers found it challenging to follow the development and subsequent alignment issues over time, especially given the changes that occurred within the program. It seems that some of the studies may be outdated and no longer relevant. • 4.7-10, p. 2 Committee notes indicate leadership is aware that this evidence will not meet the alignment requirement of 3.1 • For the alignment studies that are still relevant (despite program changes), what is the plan to address areas for which alignment was moderate, limited, or weak? • Alignment based on 2012 Amplification is needed. • 3.1.2 is an example blueprint but there is limited information regarding how the tests should be specified. For example, there is no indication on the
 If the State administers an AELPA aligned with alternate ELP achievement standards, the assessment shows adequate linkage to the State's ELP standards in terms of content match (i.e., no unrelated content) and that the breadth of content and linguistic complexity 		blueprint that would indicate the degree of cognitive complexity (linguistic difficulty level) across the tests by standard. Depth and breadth cannot be determined based on the information in the test blueprint provided.

determined in test design is appropriate for ELs who are students with the most significant cognitive disabilities.	 <u>Alignment of language demands</u> Evidence 3.1-1, 2011 Alignment study for ACCESS, no information regarding how areas identified in the study will be addressed. Standards have been updated since this study. 	• Lack of clarity in the relationship between DOK (for standards) and LDL (for items to standards).
	 Alternate ACCESS Peer Review narrative, 3.1, p. 2. "There has not yet been an independent alignment study between the Alternate ACCESS for ELLs assessment and the alternate model performance indicators (AMPIs), nor has there been a linking study examining the relationship between the AMPIs and WIDA's ELP standards." 	 Alternate ACCESS Evidence is needed for this critical element including plans to address any issues following the 2019 study.
Section 3.1 Summary Statement		

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS

• Documentation of adequate alignment between the State's ELP assessment and the ELP standards the assessment is designed to measure in terms of language knowledge and skills, the depth and breadth of the State's ELP standards, across all proficiency levels, domains, and modalities identified therein;

• Documentation of alignment (as defined) between the State's ELP standards and the language demands implied by, or explicitly stated in, the State's academic content standards

Alternate ACCESS

• Evidence of adequate linkage to the State's ELP standards in terms of content match (i.e., no unrelated content) and that the breadth of content and linguistic complexity determined in test design is appropriate for ELs who are students with the most significant cognitive disabilities.

 and state has documented adequate validity evidence that its assessments tap the intended language processes appropriate for each grade level/gradeband as represented in the State's ELP standards. 3.2-1 & 3.2-2, Writing try outs 3.2-3, Recommendation log Unclear how this document was used and to which assessments it is relevant. 2.1-2, DIF analysis by test, relevance to this critical element is not clear. Not presented in a user-friendly way. Results are buried. 	ritical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
• Evidence is needed for this critical element.	alidity evidence that its assessments tap <i>the intended language processes</i> ppropriate for each grade level/grade- and as represented in the State's ELP	 3.2-1 & 3.2-2, Writing try outs 3.2-3, Recommendation log Unclear how this document was used and to which assessments it is relevant. 2.1-2, DIF analysis by test, relevance to this critical element is not clear. Not presented in a user-friendly way. Results are buried. Alternate ACCESS 3.2-4 Report from Alternate ACCESS for ELLs Pilot Testing, November 14–23, 2011. "We gained rich, useful data which informed revisions to the test materials."	 the validity argument related to this critical element was not provided for any domain. It is unclear how the item tryouts fit into the item development process.

Critical Element 3.2 – Validity Based on Linguistic Processes

ACCESS & Alternate ACCESS

• Adequate validity evidence that its assessments tap *the intended language processes* appropriate for each grade level/grade-band as represented in the State's ELP standards

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate validity evidence that the scoring and reporting structures of its assessments are consistent with the sub-domain structures of the State's <i>ELP standards</i> on which the intended interpretations and uses of results are based.	 ACCESS 3.3-1, Relationship between domains, factor analysis supports reporting 4 domain scores 2.1-2, p. 93-94, Correlation of domain scores 2.1-5, p. 69-71, Correlation of domain scores Alternate ACCESS 2.1-4, p. 60-61, 70 Higher for Alternate, might be helpful to include an explanation or rationale for why this is reasonable. 	 ACCESS & Alternate ACCESS Evidence is provided for this critical element. However, explicit statements of how the statistics lend validity evidence is missing. Were there criteria applied to the various statistical analyses included in this critical element, and if so, what were they and what rationales were there for using them to determine the appropriateness of the results?
Section 3.3 Summary Statement		
 _X The following additional evidence is ACCESS & Alternate ACCESS Explanation of how the included statistical 	needed/provide brief rationale: l analyses relate to the validity framework for the assessmen	nts.

Critical Element 3.3 – Validity Based on Internal Structure

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has documented adequate validity evidence that the State's assessment scores are related as expected with other variables.	 ACCESS 3.4-8 Bridge study, 2006 3.4-9, factor analysis and SEM exploring language skills and math (year unknown) 3.1-11 Relationship between ACCESS domain scores and NECAP reading, writing, and math assessments from 2009 Evidence does not include studies that were done with the current version of the assessment. Evidence here should focus on the relationship with "other variables" and should provide information about how the "scores are related as expected." Therefore, much of the cited evidence is not sufficient. 	 ACCESS To fully address this standard, evidence of how the "scores are related as expected to other variables" is required. This additional evidence would also link the study findings to the validity framework. Additional studies are needed with the current version of the assessment.
	 Alternate ACCESS 2.1-4 Annual Technical Report for Alternate ACCESS for ELLs, 2015-16 Administration, pp. 60-61. Correlations among Scale Scores by Grade- level Cluster. No relevant evidence was provided. 	Alternate ACCESSEvidence related to this critical element is needed.

<u>Critical Element 3.4 – Validity Based on Relations to Other Variables</u>

Section 3.4 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS

- Evidence of how the "scores are related as expected to other variables" is required and how this supports the validity argument
- Additional studies are needed with the current version of the assessment.

Alternate ACCESS

• Evidence that the State's assessment scores are related as expected with other variables and how this supports the validity argument

SECTION 4: TECHNICAL QUALITY – OTHER

Critical Element 4.1 – Reliability

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 The State has documented adequate reliability evidence for its assessments for the following measures of reliability for the State's student population overall and each student group consistent with nationally recognized professional and technical testing standards. If the State's assessments are implemented in multiple States, measures of reliability for the assessment overall and each student group consistent with nationally recognized professional and technical testing standards, including: Test reliability of the State's assessments estimated for its student population (<i>for ELP assessments, including any domain or component sub-tests, as applicable</i>); Overall and conditional standard error of measurement of the State's assessments, including any domain or component sub-tests, as applicable; Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results; For computer-adaptive tests, evidence that the assessments produce test forms with adequately 	ACCESS 2.1-2, provided by domain No subgroup information 	 ACCESS While the various statistics (e.g. Cronbach's alpha, decision consistency, TIF) are provided at the composite and domain levels, they are not computed for any subgroups, such as gender, SES, and accommodation type. Accuracy and consistency measures for some composite scores and domains appeared low (see for example 2.1-2 p.345, p.167-168). If the proficiency levels are used to make decisions for these measures, then this needs to be addressed. The Peers' understanding is that states can make decisions regarding the way in which scores are used to make decisions. Does WIDA provide more guidance given the reliability information? While it may have been done, the Peers could not locate, for computer-adaptive tests, evidence that the assessments produce test forms with adequately precise estimates of <i>an EL's English proficiency</i>. Given the multistage adaptive administrations, the Peers were looking for evidence that WIDA has considered the reliability of the forms, or pathways, across students. A large amount of statistical output was provided; however, there was not information or narrative about how this information is interpreted by WIDA and will be used to guide future development work within the program. For example, are there areas for which WIDA will focus efforts and try to improve in the future? For example, this could include TAC notes from the discussion of these statistics.

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
precise estimates of an EL's English proficiency.	 Alternate ACCESS 2.1.4 Annual Technical Report for Alternate ACCESS, 2015-16, p. 73-80. "In general, the reliability and the accuracy and consistency of classification of the Overall Composite are very high for Alternate ACCESS for ELLs." Reliability information for overall composite scores was located (p. 109, 138, 165, 194). 	 Alternate ACCESS While various reliability estimates (Cronbach's alpha, decisions consistency) are reported for some composite scores and domains, the Peers could not locate the TIFs for the overall composite scores. While the various statistics (e.g. Cronbach's alpha, decision consistency, TIF) are provided at the composite and/or domain levels, they are not computed for any subgroups, such as gender and SES, accommodation type. Accuracy and consistency measures for some composite scores and domains appeared low (see for example 2.1-4 p.96, p.102). If the proficiency levels are used to make decisions for these measures, then this needs to be addressed. The Peers' understanding is that states can make decisions regarding the way in which scores are used to make decisions. Does WIDA provide more guidance given the reliability information? A large amount of statistical output was provided; however, there was not information or narrative about how this information is interpreted by WIDA and will be used to guide future development work within the program. For example, are there areas for which WIDA will focus efforts and try to improve in the future? For example, this could include TAC notes from the discussion of these statistics. For future submissions and the benefit of the program, it is important for WIDA to provide the reliability information to the various page number references.

• TIFs for overall composite scores		

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
 For all State ELP assessments, assessments should be developed, to the extent practicable, using the principles of universal design for learning (UDL) (see definition⁶). For ELP assessments, the State has taken reasonable and appropriate steps to ensure that its assessments are accessible to all EL students and fair across student groups, including ELs with disabilities, in their design, development, and analysis. 	 ACCESS 2.2-17 The WIDA Accessibility and Accommodations Framework, p. 4. Examples of universal design in ACCESS test items: Test items with multiple modalities, including supporting prompts with appropriate animations and graphics, Embedded scaffolding, tasks broken into "chunks", modeling using task models and guides 2.2-17, pp. 11-12. ACCESS also incorporates the use of universal tools that are available to all students, designated supports that are features available to any student, and accommodations for students with disabilities. 4.2.1 Test and item Design Plan for the Annual Summative and On-demand Screener 2013, p. 14 indicates that items will be developed using the principles of universal design. No elaboration. 4.2.2 Guidelines for the Use of Accommodations, Accessibility Features, and Allowable Test Administration Procedures for the ACCESS for ELLs 4.2.3 ACCESS for ELLs 2.0 Accommodations, Accessibility Features, and Allowable Test Administration Procedures for Students Participating in Either the Online or Paper –Based Test Administrations 4.2.4 Graphics Guidelines 	 ACCESS While information is provided about WIDA's approach to universal design and accessibility, there is limited information about the processes employed to implement the principles during development and review. DIF was considered for gender and Hispanic/non-Hispanic, but this should be done for other subgroups as well (e.g., accommodated/non-accommodated, SES).

Critical Element 4.2 – Fairness and Accessibility

⁶ see page 28 of "A State's Guide to the U.S. Department of Education's Assessment Peer Review Process", September 24, 2018 available at: www.ed.gov/admins/lead/account/saa.html

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

	 2.1-2 Annual Technical Report for ACCESS for ELLs, DIF analysis for Hispanic/non-Hispanic and gender. Should include other subgroups. Alternate ACCESS 2.1-4 Technical Report for Alternate ACCESS, p. 72-73. Not clear how this relates to the critical element. 2.2-16, p. 36. Alternate ACCESS for ELLs Accommodation Selections. Only 3 accommodations indicated. Does not address use of braille, eye gaze, and other modes of communication. Evidence similar to ACCESS submission is not included for Alternate ACCESS. 	 Alternate ACCESS Braille and alternate modes of communication are not addressed (e.g. eye gaze, assistive technology). Guidance is needed about the appropriate "individualized instructional supports" that can be used during the assessment. Recommend that permitted "individualized instructional supports" be clearly defined for standardized test administration and for accessibility and fairness. Evidence related to item development, test design, item reviews for Alternate ACCESS is not provided. DIF was considered for gender and Hispanic/non-Hispanic, but this should be done for other subgroups as well (e.g., accommodation type, SES).
Section 4.2 Summary Statement		

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS & Alternate ACCESS

- Evidence of the implementation of universal design and accessibility principles during development and review.
- Additional DIF analyses to include more student subgroups.

Alternate ACCESS

- Evidence related to braille and alternate modes of communication
- Definitions of and guidance for appropriate individualized instructional supports that can be used during the assessment

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
The State has ensured that each assessment provides an adequately precise estimate of student performance across the full performance continuum for <i>ELP</i> <i>assessments</i> , including performance for EL students with high and low levels of English language proficiency and with different proficiency profiles across the domains of speaking, listening, reading, and writing.	 ACCESS 2.1-2 Annual Technical Report for ACCESS Online ELP Test 2016-17, pp. 95-110. Presents data from online tests that demonstrate students in each grade are represented at each proficiency level. Levels of item difficulty are presented in tables in subsequent pages. 2.1-2 TIFs are commonly unexpected, for example p.201. 2.1-5 Annual Technical Report for ACCESS Paper ELP Test 2016-17, pp. 72-91. Presents data from paper tests that demonstrate students in each grade are represented at each proficiency level. Alternate ACCESS 2.1.4 Annual Technical Report for Alternate ACCESS 2015-16, pp. 62-66. Displays tables demonstrating students in each grade are performing at each proficiency level. 2.1-4 Frequency distributions show potential ceiling effects for example p.93. 	 ACCESS & Alternate ACCESS Evidence submitted does not support that each assessment provides an adequately precise estimate of student performance across the full performance continuum for <i>ELP assessments</i>, including performance for EL students with high and low levels of English language proficiency. For future submissions and the benefit of the program, it is important for WIDA to provide narrative summaries to the Peers and other audiences. For example, it would be helpful if WIDA provided narrative about the unexpected TIFs in 2.1-2 and the frequency distributions in 2.1-4 as well as any additional analyses WIDA conducted in response to these results.
Section 4.3 Summary Statement		

Critical Element 4.3 – Full Performance Continuum

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS & Alternate ACCESS

• Evidence submitted does not support that each assessment provides an adequately precise estimate of student performance across the full performance continuum for *ELP assessments*, including performance for EL students with high and low levels of English language proficiency.

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
The State has established and documented standardized scoring procedures and protocols for its assessments (and <i>for</i>	ACCESS	ACCESS
<i>ELP assessments, any applicable domain</i> <i>or component sub-tests</i>) that are designed to produce reliable and meaningful results, facilitate valid score interpretations, and report assessment results in terms of the State's <i>ELP</i> <i>standards</i> .	 Standardized scoring procedures and protocols 4.4-1 Speaking Scoring Scale 4.4-2 Writing Scoring Scale 4.4-3 Writing Anchors 4.4-4 Training for Paper Speaking. 3 online Modules, 2 are required, 1 is recommended. A quiz must be taken to certify the taker may administer and score the speaking test. It is not indicated if the 	 The Peers found the claims of 95%+ agreement questionable for writing tasks, based on the definition of exact agreement including adjacent scores There was no evidence provided about how WIDA makes use of the results, for example, when agreement rates are lower for one task. 4.4-8 documented that paper scoring of speaking by the student's teacher results in higher scores. Therefore, make is madule 2 act agreement has a set of the result of the result in the student's teacher results in higher scores. Therefore, make is madule 2 act agreement has a set of the result of th
<i>For ELP assessments</i> , if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s), the State must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur. ⁷	 assessment will be accessible to the test administrator if this person does not pass the quiz. 4.4-5 It is not indicated the audience for this document, how they receive it, or what training is provided in conjunction with receipt of this document. 4.4-6 Not clear how this relates to the critical element. 4.4-8 Were the recommendations from this study and report implemented? 2.1-2, pp. 12-15 Raters for Online Speaking and Writing Scoring: Rater qualifications, training, monitoring. Adjacent scores are considered agreement; raters must demonstrate 70% agreement on a qualifying set prior to scoring live responses. What happens when one is anomalous, for example task 6 on p.202? Writing task scoring statistics are questionable. 2.1.5 Technical Report for ACCESS paper Administration 2016-17, pp. 18-23. Describes scoring procedures for writing scored by DRC and speaking scored by test administrator. 	 why is module 3 not required and how is the rating monitored to ensure reliable results? There are recommendations for monitoring raters who administer the speaking test in 4.4-8, but how are these recommendations implemented and monitored? WIDA provided evidence of four models for states to consider if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s). States must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur.

<u>Critical Element 4.4 – Scoring</u>

⁷ See full reference in regulation, 34 CFR § 200.6(h)(4)(ii) (online at <u>https://www.ecfr.gov/cgi-bin/text-</u>idx?SID=07e168e9e7a6c5931b4549cc15547ee9&mc=true&node=se34.1.200_16&rgn=div8)

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

 Less than four domains 4.4-7 Four models are presented to create a composite score when less than four domains are assessed. No recommendations were made, rather these are suggestions of models that the states could use to report a composite score when a student with a disability is assessed in less than four domains. While this situation is considered, there is limited information provided to states to make defensible decisions for these students particularly with regards to the impact on the validity framework. 	
Alternate ACCESS	
	Alternate ACCESS
Standardized Scoring Procedures	
 2.1-4 Scripts and directions for scoring are provided in the TAM and are referenced in the TR for Alternate ACCESS. All assessments are scored by the test administrator. There is no evidence provided that standardized scoring procedures are applied given the local scoring. 	 There is no evidence of the implementation of standardized scoring procedures. This could include monitoring of test administration, a second scorer in the room during test administration, analyses of scores to identify test irregularities or qualification of scorers. Definitions of key terms and test administration and scoring procedures (e.g. cueing, attending, approaching, permissible individualized instructional supports that can be used during assessment) are not included which likely leads to inconsistent administration and scoring. WIDA provided evidence of four models for states to consider if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s). States must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur.

Section 4.4 Summary Statement
_X The following additional evidence is needed/provide brief rationale:
ACCESS
• The definition of exact agreement for writing is not recommended. This should be redefined and then analyses redone.
• Evidence that the recommendations about the paper speaking test are implemented and monitored.
Alternate ACCESS
 Evidence of the implementation of standardized scoring procedures and monitoring and to include definitions of key terms and test administration and scoring procedures.
ACCESS & Alternate ACCESS
• Evidence that if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s), the State must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur. (This is expected from States.)

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
If the State administers multiple forms of <i>ELP assessments</i> within or across grade- spans, ELP levels, or school years, the State ensures that all forms adequately represent the State's <i>ELP standards</i> and yield consistent score interpretations such that the forms are comparable within and across settings.	 ACCESS 2.1-2 p.54 ACCESS Online. Equating summary for year to year analysis. Why isn't Listening refreshed? 2.1-5 ACCESS paper. Based on ACCESS Online. No equating for Reading and Listening. Aren't the ACCESS 1.0 data out of date? 	 ACCESS The evidence did not include sufficient information for Listening. Specifically, a rationale for why the test was not refreshed, a plan to refresh in the future and an explanation of the year to year use of item parameters (e.g. were item parameters for the domain used from previous years?). The evidence did not include sufficient information for the paper version of Reading and Listening. Specifically, a rationale for why equating was not done. No evidence included to demonstrate that the content representativeness of the anchor item sets are considered. Where applicable, a rationale for the use of anchor items over time and potential refreshment should be provided.
	 Alternate ACCESS 2.1-4 Alternate ACCESS. No equating. Same items since field test in 2013? 	 Alternate ACCESS The evidence does not include a rationale for using the same items each year since 2013 and how this does not threaten the validity of the scores.

Critical Element 4.5 – Multiple Assessment Forms

Section 4.5 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS

- Additional evidence that the Listening domain yields consistent score interpretations such that the forms are comparable within and across settings
- Rationales for why equating is not done for the paper versions of the Reading and Listening domains
- Additional considerations and rationales related to the anchor item sets.

Alternate ACCESS

• Rationales for why item refreshment is not done and how this does not impact the validity of the scores.

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 If the State administers any of its assessments in multiple versions within a subject area (e.g., online versus paperbased delivery), grade level, or school year, the State: Followed a design and development process to support comparable interpretations of results for students tested across the versions of the assessments; Documented adequate evidence of comparability of the meaning and interpretations of the assessment results. 	 ACCESS Online and paper comparability Comparability studies done, Evidence 4.6-1, 4.6-2, 4.6-6, 4.6-12 Results shared with TAC, Evidence 4.6-4, 4.6-5, 4.6-8 Based on input from TAC implemented equipercentile equating, Evidence 4.6-10, 4.6-11, 4.6-12, 4.6-13 Will continue to monitor Alternate ACCESS N/A 	 ACCESS Given the effect sizes found in 4.6-6, there is limited evidence of the degree to which these differences are explained by mode or if other factors may have contributed (e.g. impact of leniency in local scoring for speaking). The narrative in this section was helpful in understanding how this critical element has been addressed over time including follow up actions taken after studies.
Section 4.6 Summary Statement		
_X No additional evidence is required		

Critical Element 4.6 – Multiple Versions of an Assessment

he State:	
 Has a system for monitoring, maintaining, and improving, as needed, the quality of its assessment system, including clear and technically sound criteria for the analyses of all of the assessments in its assessment system (i.e., general assessments), and Evidence of adequate technical quality is made public, including on the State's website. ACCESS System for monitoring, maintaining, improving Regular TAC meetings Subcommittees Concern about the ability to track all of the issues and address areas of improvement over time. Given the size and complexity of the program and given the evidence submitted for various critical elements, WIDA has not demonstrated that the various analyses and results are tracked over time. Made public Evidence is not provided. 	 ACCESS System for monitoring, maintain, improving The TAC and subcommittees address many issues or topics; however, more broadly for the program, there appears to be a gap between the results of analyses and studies and the way in which that information is used to improve the program. These have been noted in other critical elements for specific analyses and studies. There is no evidence of a complete system (e.g., action plan, timelines, annual work plan).

Critical Element 4.7 – Technical Analysis and Ongoing Maintenance

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS & Alternate ACCESS

- Evidence of a system for monitoring, maintaining, and improving, as needed, the quality of its assessment system, including clear and technically sound criteria for the analyses of all of the assessments in its assessment system (i.e., general assessments and alternate assessments),
- Evidence of adequate technical quality is made public, including on the State's website is not provided. (provided by States)

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
The State has in place procedures to ensure the inclusion of all public elementary and secondary school students ⁸ with disabilities in the State's assessment system. Decisions about how	ACCESS 2.2-16 Participation Guidelines, p.4, includes information for students who are deaf	ACCESS & Alternate ACCESS This critical element is primarily addressed by states and informed by the information provided by WIDA.
to assess students with disabilities must be made by a student's IEP Team under IDEA, the placement team under Section 504, or the individual or team designated	Alternate ACCESS	Alternate ACCESS
by a district to make that decision under Title II of the ADA, as applicable, based on each student's individual abilities and needs.	2.2-16 Recommended Participation Guidelines, p.27	Submitted evidence did not include Kindergarten for Alternate ACCESS. Per IDEA, Kindergarten should be included. Evidence is required across the critical elements for Kindergarten Alternate ACCESS.
• For ELP assessments, policies that require the inclusion of an EL with a disability that precludes assessment of the student in one or more of the required domains (speaking, listening, reading, and writing) such that there are no appropriate accommodations for the affected component (the State must assess the student's English language proficiency based on the remaining components in which it is possible to assess the student).		

⁸ For ELP peer review, this refers to ELs with disabilities.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Section 5.1 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS & Alternate ACCESS

• Evidence to be provided by states.

Alternate ACCESS

• Kindergarten should be included in the assessment. Evidence related to Kindergarten for Alternate ACCESS is needed across critical elements.

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
• Note: This critical element does not apply to ELP assessments, as the requirements only apply to the inclusion of ELs in <u>academic</u> <u>assessments</u> .		
Section 5.2 Summary Statement		
No additional evidence is required or		
 The following additional evidence is n [list additional evidence needed w/bit] 	•	

Critical Element 5.2 – DOES NOT APPLY to ELP Assessment Peer Review

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 Critical Element The State makes available appropriate accommodations and ensures that its assessments are accessible to students with disabilities and ELs, including ELs with disabilities. Specifically, the State: Ensures that appropriate accommodations are available for ELs; Has determined that the accommodations it provides (1) are appropriate and effective for meeting the individual student's need(s) to participate in the assessments, (2) do not alter the construct being assessed, and (3) allow meaningful interpretations of results and comparison of scores for students who need and receive accommodations; Has a process to individually review and allow exceptional requests for a small number of students who require accommodations beyond those routinely allowed. Ensures that accommodations for all required assessments do not deny students with disabilities or ELs the opportunity to participate in the assessment. 		

Critical Element 5.3 – Accommodations

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
	 <u>Exceptional requests</u> 5.3-7 Unique Accommodations Request Form – SEAs may adopt this form for use <u>Accommodations do not deny swd or ELS opportunity</u> to participate or benefit from participation in assessment Not addressed directly No evidence that they are denied. Alternate ACCESS 2.2-16, p. 36. Only three accommodations are listed in the Accessibility and Accommodations Supplement. The use of braille, various response modes, etc. are not identified as accommodations. "Individualized instructional supports" are permitted, but these are not defined. 2.3-1, p. 143 "During the administration of Alternate ACCESS for ELLs, individualized instructional supports in everyday classroom instruction may be used to meet individual student needs, <i>only if they do change what is being measured on the assessment</i>." Likely a typo. Permissable individualized instructional supports for use in the assessment need to be defined. 	 Alternate ACCESS Evidence for all aspects of this critical element are needed. Evidence that students who need braille and/or alternate response modes are able to participate. It is strongly recommended that the permissible individualized instructional supports be identified and described in the TAM and/or test administration script to ensure validity of test scores and reduce occurrence of test irregularities.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Section 5.3 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale:

ACCESS

- Evidence that the provided accommodations (1) are appropriate and effective for meeting the individual student's need(s) to participate in the assessments, (2) do not alter the construct being assessed, and (3) allow meaningful interpretations of results and comparison of scores for students who need and receive accommodations and students who do not need and do not receive accommodations;
- Evidence of a process to individually review and allow exceptional requests for a small number of students who require accommodations beyond those routinely allowed. (Provided by states)

Alternate ACCESS

• Evidence is needed for all aspects of this critical element.

<u>Critical Element 5.4 – Monitoring Test Administration for Special Populations</u>

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Section 5.4 Summary Statement

_X__ The following additional evidence is needed/provide brief rationale: ACCESS & Alternate ACCESS • Evidence to be provided by states.

SECTION 6: ELP ACHIEVEMENT STANDARDS AND REPORTING

Critical Element 6.1 – State Adoption of ELP Achievement Standards for All Students

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 For ELP standards: The State adopted ELP achievement standards that address the different proficiency levels of ELs; If the State has developed alternate ELP achievement standards, it has adopted them only for ELs who are students with the most significant cognitive disabilities who cannot participate in the regular ELP assessment even with appropriate accommodations. 	N/A	See State peer review notes.
Section 6.1 Summary Statement _X The following additional evidence is ACCESS & Alternate ACCESS • Evidence to be provided by states.	needed/provide brief rationale:	

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
 The State used a technically sound method and process that involved panelists with appropriate experience and expertise for setting: <i>ELP achievement standards and, as</i> <i>applicable, alternate ELP</i> <i>achievement standards</i>, such that: Cut scores are developed for every grade/grade band, content domain/language domain, and/or composite for which proficiency- level scores are reported. 	 ACCESS 6.1-1 Assessment Proficiency Level Scores Standard Setting Project Report. This report documents in detail the standard setting plan and rationale for the methodologies, processes used to identify and select panelists, the training provided panelists, and how the final recommendations were determined. The standard setting plan was reviewed by an outside expert; suggestions were made for refining some of the processes. 6.1-2 Research Memorandum: Recommended Cuts. Standard setting and subsequent analysis resulted in recommendations for cut scores for grades K-12 for the four domains at six proficiency levels as well as composite scores for each proficiency-level score. 	ACCESS Adequate evidence provided of standard setting.
	 Alternate ACCESS 6.1-3, p. 12-15. Using Angoff Yes/No method, cut scores for four domain scores and four composite scores were established. p. 12. The same four cut scores are used for all grades by domain. 2.1-4 p. 5-6 "As discussed in 1.3.3, because the test blueprints across grade-level clusters by domain are the same, and the Alternate ELP levels and AMPIs for the test tasks across grade-level clusters pose nearly identical linguistic challenges and differ only in the topics presented, common cut scores were set across grade-level clusters by domain." 	 Alternate ACCESS 6.1-3 p. 12 "it appears more appropriate to use the same cut scores for all grade clusters (from grades 1 to 12) by domain. In this way, it will easier to detect growth in English language proficiency from year to year for this population of English learners." The Peers disagree with this approach and believe it is important to apply the same philosophy or theoretical understanding of language development across ACCESS and Alternate ACCESS unless a divergence is supported by the research. This approach calls into question the alignment of the Alternate ACCESS to the ELPs and to the academic content standards. The Peers noted that the number of cut scores established during standard setting did not correspond

Critical Element 6.2 – ELP Achievement Standards Setting

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
		 to the number of performance levels (despite 6 levels, only 4 cut scores established during standard setting). In 6.4-3, a footnote in the sample score report states that, " the Listening, Speaking and Reading domains do not include test items targeting proficiency levels P3 and above; therefore, students cannot demonstrate English proficiency at levels P3 and higher" How was the P3 cut score determined for Writing? And why does WIDA feel that it is reasonable and defensible to exclude the higher level of performance from most domains? To address the concerns cited here, WIDA should have Cut scores that are developed for every grade/grade band, content domain/language domain, and/or composite for which proficiency-level scores are reported
Section 6.2 Summary Statement	- 	
_X No additional evidence is required		
_X The following additional evidence	is needed/provide brief rationale:	
Alternate ACCESS		
• Cut scores are developed for every g	grade/grade band, content domain/language domain, and/or co	omposite for which proficiency-level scores are reported.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
<i>For ELP achievement standards</i> : The State has ensured that ELP assessment results are expressed in terms that are clearly aligned with the State's ELP standards, and its ELP performance- level descriptors. If the State has adopted alternate ELP achievement standards for ELs who are students with the most significant cognitive disabilities, the alternate ELP	 ACCESS Alignment with ELP Standards and PLDs 6.1-1 Proficiency Level Scores Standard Setting Project, pp. 26-40 6.4-2 Interpretive Guide includes performance level descriptors It is not clear that the citations provided relate to this critical element. 	 ACCESS The Peers could not locate evidence to demonstrate that the ELP standards were referenced during the development of the performance level descriptors.
achievement standards should be linked to the State's grade-level/grade-band ELP standards, and should reflect professional judgment of the highest ELP achievement standards possible for ELs who are students with the most significant cognitive disabilities.	 Alternate ACCESS <u>Alternate ELP achievement standards are linked to</u> <u>State's grade-level/grade-band ELP standards</u> 2.1-4, p. 5 "The goal of the Standard Setting Study was to interpret performances on the Alternate ACCESS operational field test form in terms of the WIDA ELD Standards, AMPIs, and the WIDA Alternate ELP levels." 2.1-4, p. 3 "These language proficiency levels are thoroughly embedded in the WIDA ELD Standards in a two-pronged fashion. First, they appear in the performance definitions. According to the WIDA ELD Standards, the performance definitions provide a global overview of the stages of the language acquisition process. As such, they complement the Alternate Model Performance Indicators (AMPIs) for each language proficiency level (see the next paragraph for further description of the AMPIs). Second, the language proficiency levels of the WIDA ELD Standards 	 Alternate ACCESS Peer Review narrative, 3.1, p. 2. "There has not yet been an independent alignment study between the Alternate ACCESS for ELLs assessment and the alternate model performance indicators (AMPIs), nor has there been a linking study examining the relationship between the AMPIs and WIDA's ELP standards." The Peers could not locate evidence that the achievement standards reflect professional judgment of the highest ELP achievement standards possible for ELs who are students with the most significant cognitive disabilities.

Critical Element 6.3 – Aligned ELP Achievement Standards

Critical Element	Evidence (Record document and page # for future	Comments/Notes/Questions/Suggestions Regarding
	reference)	State Documentation or Evidence
	AMPIs, which exemplify the Standards. The	
	AMPIs describe the expectations for ELLs with	
	significant cognitive disabilities for each of the	
	four Standards, at the four different grade-	
	level clusters, across four language domains,	
	and at each of the language proficiency levels .	
	The sequence of these five AMPIs together	
	describes a logical progression and	
	accumulation of skills on the path from the	
	lowest level of ELP to full proficiency for	
	academic success. This progression is called a	
	'strand."" However, evidence has yet to be	
	established that there is a link between the	
	AMPIs and WIDAs ELP Standards.	
Section 6.3 Summary Statement
