Submitting by that date will help to ensure the Department has sufficient time to review and approve the amendment so the grantee can move forward with implementing its changes in advance of the approaching end of the period of availability for obligating ARP ESSER funds. As a reminder, a State must seek an amendment if it plans to implement different or additional evidence-based interventions than those currently described in Sections D.1 (evidence-based interventions to address the academic impact of lost instructional time), D.2 (evidence-based summer enrichment), or D.3 (evidence-based afterschool programs) of its ARP ESSER State plan. States are not required to submit amendments related to uses of funds set aside for emergency needs as described in section D.4. For more information about the process for submitting an amendment, please refer to the Department's September 19, 2022 [communication to Chief State School Officers](#).
